PEDIATRIX MEDICAL GROUP, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS September 30, 2005 (Unaudited)

1. Basis of Presentation:

The accompanying unaudited condensed consolidated financial statements of Pediatrix Medical Group, Inc. and the notes thereto presented in this Quarterly Report have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission applicable to interim financial statements, and do not include all disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, these financial statements include all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results of interim periods. The financial statements include all the accounts of Pediatrix Medical Group, Inc. and its consolidated subsidiaries (collectively, "PMG") together with the accounts of PMG's affiliated professional associations, corporations and partnerships (the "affiliated professional contractors"). PMG has contractual management arrangements with its affiliated professional contractors which are separate legal entities that provide physician services in certain states and Puerto Rico. The terms "Pediatrix" and the "Company" refer collectively to Pediatrix Medical Group, Inc., its subsidiaries, and the affiliated professional contractors.

The consolidated results of operations for the interim periods presented are not necessarily indicative of the results to be experienced for the entire fiscal year. The accompanying unaudited condensed consolidated financial statements and the notes thereto should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's most recent Annual Report on Form 10-K.

2. Summary of Significant Accounting Policies:

Stock Incentive Plans

The Company awards stock options and restricted stock to key employees under its stock-based compensation plans. As permitted under Statement of Financial Accounting Standards No. 123 ("FAS 123"), "Accounting for Stock-Based Compensation," the Company accounts for stock-based compensation to employees using the intrinsic value method prescribed by APB Opinion No. 25 ("APB 25"). In accordance with the intrinsic value method, no compensation expense for stock options issued to employees is reflected in the condensed consolidated statements of income, because the market value of the Company's stock equals the exercise price on the day options are granted. To the extent the Company realizes an income tax benefit from the exercise of certain stock options, this benefit results in a decrease in current income taxes payable and an increase in additional paid-in capital.

Compensation cost related to restricted stock awards is based on the number of shares awarded and the quoted market price of the Company's common stock on the date of award in accordance with the intrinsic value method. The Company's reported net income in the condensed consolidated statements of income includes the impact of compensation expense related to restricted stock awards. See footnote 6 to the condensed consolidated financial statements for more information on the Company's restricted stock awards.

Had compensation expense been determined based on the fair value accounting provisions of FAS 123, the Company's net income and net income per share would have been reduced to the pro forma amounts below:

	ree Months E 2005	 ember 30, 2004 thousands, ex	_	ne Months E 2005 hare data)	Ended Sept	<u>ember 30,</u> 2004

Basic	\$ 1.15	\$.91	\$	2.95	\$	2.54
Diluted	\$ 1.13	\$.89	\$	2.90	\$	2.48
7						

The fair value of each option or share to be issued is estimated on the date of grant using the Black-Scholes option-pricing model. The Company did not grant any options in the three months ended September 30, 2005. The weighted average assumptions used for grants in the three months ended September 30, 2004 are: dividend yield of 0%, expected volatility of 46%, and a risk-free interest rate of 3.7% for options with expected lives of three and one-half years (all employees of the Company) except officers and physicians). No options with expected lives of three years (officers of the Company) and four years (physicians of the Company) were granted in the three months ended September 30, 2004. The weighted average assumptions for grants in the nine months ended September 30, 2005 are: dividend yield of 0%, expected volatility of 27%, and risk-free interest rates of 3.7% for options with expected lives of three years (officers of the Company), 3.6% for options with expected lives of four years (physicians of the Company), and 3.7% for options with expected lives of three and one-half years (all other employees of the Company). The weighted average assumptions for grants in the nine months ended September 30, 2004 are: dividend yield of 0%, expected volatility of 46%, and risk-free interest rates of 2.9% for options with expected lives of three years (officers of the Company), 2.6% for options with expected lives of four years (physicians of the Company), and 2.4% for options with expected lives of three and one-half years (all other employees of the Company).

Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 123R ("FAS 123R") "Share Based Payment." This statement is a revision to FAS 123 and supersedes Accounting Principles Board (APB) Opinion No. 25, "Accounting for Stock Issued to Employees," and amends FAS No. 95, "Statement of Cash Flows." This statement requires companies to expense the cost of employee services received in exchange for an award of equity instruments, including stock options. This statement also provides guidance on valuing and expensing these awards, as well as disclosure requirements with respect to these equity arrangements. In April 2005, the Securities and Exchange Commission (the "SEC") deferred the requirement for registrants to adopt FAS 123R from the beginning of the first interim period beginning after June 15, 2005 to the beginning of the first annual period beginning after June 15, 2005.

As permitted by FAS 123, the Company currently accounts for share-based payments to employees using APB Opinion No. 25's intrinsic value method and, as such, the Company generally recognizes no compensation costs for employee stock options. The adoption of FAS 123R will have a significant impact on the Company's results of operations, although it will have no impact on the Company's overall financial position. The Company will adopt the provisions of FAS 123R effective January 1, 2006. The Company has not yet determined the impact that the adoption of FAS 123R will have on its future results of operations.

3. Business Acquisitions:

The Company acquired 12 physician group practices during the nine months ended September 30, 2005. Total consideration and related costs for the acquired practices was approximately \$85.7 million in cash. The Company may be required to pay additional contingent consideration of up to \$10.0 million in cash under certain contract provisions relating to these acquisitions. In connection with these acquisitions, the Company recorded goodwill of approximately \$85.2 million, other identifiable intangible assets consisting of physician and hospital agreements of approximately \$2.1 million, and liabilities of \$1.6 million. The goodwill related to these acquisitions is deductible for tax purposes and represents the only change in the carrying amount of goodwill for the nine month period ended September 30, 2005. The results of operations of the acquired practices have been included in the Company's condensed consolidated financial statements from their respective dates of acquisition.

The following unaudited pro forma information combines the consolidated results of operations of the Company and the physician group practice operations acquired during 2004 and 2005 as if the transactions had occurred at the beginning of the respective periods.

			Three Mo Septen	nths Ende 1ber 30,	ed		Nine Mor Septer	1ths End nber 30,	ed	
Net patient service revenue		\$17	79,447	\$1	69,312	\$	526,525	\$	497,860	
Net income		\$ 2	28,348	\$	28,107	\$	75,439	\$	79,052	
Net income per share:										
Basic		\$	1.21	\$	1.17	\$	3.27	\$	3.27	
Diluted		\$	1.18	\$	1.13	\$	3.17	\$	3.14	
	8									

The pro forma results do not necessarily represent results that would have occurred if the acquisitions had taken place at the beginning of the period, nor are they indicative of future results of the combined operations.

4. Investments:

Investments consist of held-to-maturity securities issued primarily by the U.S. Treasury, other U.S. Government corporations and agencies, and states of the United States. The Company has the positive intent and ability to hold its investments to maturity, and therefore carries such investments at amortized cost in accordance with the provisions of Financial Accounting Standards No. 115 ("FAS 115"), "Accounting for Certain Investments in Debt and Equity Securities." At September 30, 2005, the Company's investments consisted of short-term investments with remaining maturities of less than one year and long-term investments with maturities of one to three years as follows:

	She	ort-Term		ng-Term
		(in th	ousands)	
U.S. Treasury Securities	\$	8,944	\$	—
Federal Home Loan Securities		1,972		1,505
Municipal Debt Securities		_		1,526
Commercial Paper		493		_
Federal Farm Credit Bank Discount Note		486		
	\$	11,895	\$	3,031

5. Accounts Payable and Accrued Expenses:

Accounts payable and accrued expenses consist of the following:

	Se	eptember 30, 2005		cember 31, 2004
		(in t	housands)	
Accounts payable	\$	10,872	\$	13,353
Accrued salaries and bonuses		54,657		62,004
Accrued payroll taxes and benefits		13,855		10,542
Accrued professional liability risks		36,842		31,983
Other accrued expenses		18,987		11,109
	\$	135,213	\$	128,991

6. Restricted Stock:

On July 14, 2005, the Compensation Committee of the Board of Directors of the Company awarded approximately 339,000 shares of restricted stock to key employees under the Company's 2004 Incentive Compensation Plan. The Company records its restricted stock awards as unearned compensation as reflected in the condensed consolidated statement of shareholders' equity and recognizes compensation expense ratably over the corresponding vesting periods. The Company's restricted stock awards generally vest over periods of 3 years upon the fulfillment of specified service-based conditions and in certain instances performance-based conditions.

The Company recorded unearned compensation of \$25.9 million on the date of its restricted stock awards and recognized \$4.7 million of equity-based compensation expense during the three months ended September 30, 2005. The after-tax impact of equity-based compensation expense on net income was \$3.0 million for the three months ended September 30, 2005.

7. Net Income Per Share:

Basic net income per share is calculated by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per share is calculated by dividing net income by the weighted average number of common and potential common shares outstanding during the applicable period. Potential common shares consist of the dilutive effect of outstanding options and equity-based compensation calculated using the treasury stock method.

The calculations of basic and diluted net income per share for the three and nine months ended September 30, 2005 and 2004 are as follows:

	Three Mon Septem 2005		Nine Months Ended September 30, 2005 2004		
Basic:		(in thousands, except	tion per share data)		
Net income applicable to common stock	<u>\$ 28,057</u>	\$ 25,943	\$ 73,167	<u>\$ 72,494</u>	
Weighted average number of common shares outstanding	23,438	24,043	23,085	24,199	
Basic net income per share	<u>\$ 1.20</u>	\$ 1.08	<u>\$ 3.17</u>	<u>\$ 3.00</u>	
Diluted:					
Net income applicable to common stock	\$ 28,057	\$ 25,943	\$ 73,167	\$ 72,494	
Weighted average number of common shares outstanding	23,438	24.043	23.085	24,199	
Weighted average number of dilutive common stock equivalents	651	937	716	24,199 977	
Weighted average number of common and common equivalent shares outstanding	24,089	24,980	23,801	25,176	
Diluted net income per share	<u>\$ 1.16</u>	\$ 1.04	\$ 3.07	\$ 2.88	

For the three months ended September 30, 2005, the Company had approximately 286,000 outstanding shares of unvested restricted stock that were excluded from the computation of diluted earnings per share because they were anti-dilutive. For the three months ended September 30, 2004, the Company had approximately 50,000 outstanding employee stock options that were excluded from the computation of diluted earnings per share because they were anti-dilutive. For the nine months ended September 30, 2005, the Company had approximately 339,000 outstanding shares of unvested restricted stock and approximately 38,000 outstanding employee stock options that were excluded from the computation of diluted earnings per share because they were anti-dilutive. For the nine months ended September 30, 2004, the Company had approximately 59,500 outstanding employee stock options that were excluded from the computation of diluted earnings per share because they were anti-dilutive. For the nine months ended September 30, 2004, the Company had approximately 59,500 outstanding employee stock options that were excluded from the computation of diluted earnings per share because they were anti-dilutive. For the nine months ended September 30, 2004, the Company had approximately 59,500 outstanding employee stock options that were excluded from the computation of diluted earnings per share because they were anti-dilutive.

8. Contingencies:

In June 2002, the Company received a written request from the Federal Trade Commission (the "FTC") to submit information on a voluntary basis in connection with an investigation of issues of competition related to its May 2001 acquisition of Magella Healthcare Corporation and its business practices generally. In February 2003, the Company received additional information requests from the FTC in the form of a Subpoena and Civil Investigative Demand. Pursuant to these requests, the Company produced documents and information relating to the acquisition and its business practices in certain markets. The Company has also provided on a voluntary basis additional information and testimony on issues related to the investigation. At this time, the investigation remains active and ongoing and the Company is cooperating fully with the FTC.

Beginning in April 1999, the Company received requests from various federal and state investigators for information relating to its billing

practices for services reimbursed by Medicaid, and the United States Department of Defense's TRICARE program for military dependants and retirees. Since then, a number of the individual state investigations were resolved through agreements to refund certain overpayments and reimburse certain costs to the states. In June 2003, the Company was advised by a United States Attorney's Office that it was conducting a civil investigation with respect to its Medicaid billing practices nationwide. This federal Medicaid investigation, the TRICARE investigation, and related state inquiries are being coordinated together and are active and ongoing.

In July 2005, the Company was informed by the United States Attorney's Office that the federal Medicaid investigation was initiated as a result of a complaint filed under seal by a third party, known as "qui tam" or "whistleblower" complaint, under the federal False Claims Act which permits private individuals to bring confidential actions on behalf of the government. Because the qui tam complaint is under seal, the Company has not been able to review it; however, the Company has been informed by the United States Attorney's Office that its civil investigation encompasses all matters raised by the complaint.

In April 2005, the Company made a settlement offer to federal and state authorities in connection with these matters. In accordance with Statement of Financial Accounting Standards No. 5, "Accounting for Contingencies," as a result of this offer, the Company increased its reserves relating to these matters by \$6.0 million during the three months ended March 31, 2005. Although the Company continues to cooperate fully with federal and state authorities, there can be no assurance that the Company's present offer will result in a settlement of these matters and the eventual resulting losses will not exceed the Company's established reserves.

Currently, management cannot predict the timing or outcome of any of these pending investigations and inquiries and whether they will have, individually or in the aggregate, a material adverse effect on its business, financial condition, results of operations or the trading price of its common stock.

The Company also expects that additional audits, inquiries and investigations from government authorities and agencies will continue to occur in the ordinary course of its business. Such audits, inquiries and investigations and their ultimate resolutions, individually or in the aggregate, could have a material adverse effect on its business, financial condition, results of operations or the trading price of its common stock.

In the ordinary course of its business, the Company becomes involved in pending and threatened legal actions and proceedings, most of which involve claims of medical malpractice related to medical services provided by its affiliated physicians. The Company's contracts with hospitals generally require it to indemnify them and their affiliates for losses resulting from the negligence of the Company's affiliated physicians. The Company may also become subject to other lawsuits which could involve large claims and significant defense costs. The Company believes, based upon its review of pending actions and proceedings, that the outcome of such legal actions and proceedings will not have a material adverse effect on its business, financial condition, results of operations or the trading price of its common stock. The outcome of such actions and proceedings, however, cannot be predicted with certainty and an unfavorable resolution of one or more of them could have a material adverse effect on its business, financial condition, results of operations or the trading price of such a material adverse effect on its business, financial condition, results of operations or the trading price of them could have a material adverse effect on its business, financial condition, results of operations or the trading price of them could have a material adverse effect on its business, financial condition, results of operations or the trading price of its common stock.

Although the Company currently maintains liability insurance coverage intended to cover professional liability and certain other claims, this coverage generally must be renewed annually and may not continue to be available to the Company in future years at acceptable costs and on favorable terms. In addition, the Company cannot assure that its insurance coverage will be adequate to cover liabilities arising out of claims asserted against it in the future where the outcomes of such claims are unfavorable. With respect to professional liability insurance, the Company self-insures its liabilities to pay deductibles through a wholly-owned captive insurance subsidiary. Liabilities in excess of the Company's insurance coverage, including coverage for professional liability and other claims, could have a material adverse effect on its business, financial condition and results of operations.

9. Subsequent Events:

Since September 30, 2005, the Company completed the acquisition of a physician group practice for approximately \$6.0 million in cash.

On November 2, 2005, the Company announced that its Board of Directors authorized a share repurchase program that allows the Company to repurchase up to \$50.0 million of its common stock. The program allows the Company to make open market purchases of its shares from time to time subject to price, market and economic conditions and trading restrictions.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion highlights the principal factors that have affected our financial condition and results of operations, as well as our liquidity and capital resources for the periods described. This discussion should be read in conjunction with the unaudited condensed consolidated financial statements and the notes thereto included in this Quarterly Report. In addition, reference is made to our audited consolidated financial statements and notes thereto and related Management's Discussion and Analysis of Financial Condition and Results of Operations included in our most recent Annual Report on Form 10-K. As used in this Quarterly Report, the terms "Pediatrix", the "Company", "we", "us" and "our" refer to Pediatrix Medical Group, Inc. and its consolidated subsidiaries ("PMG"), together with PMG's affiliated professional associations, corporations and partnerships ("affiliated professional contractors"). PMG has contracts with its affiliated professional contractors, which are separate legal entities that provide physician services in certain states and Puerto Rico.

The following discussion contains forward-looking statements. Please see the Company's most recent Annual Report on Form 10-K, including the section entitled "Risk Factors," for a discussion of the uncertainties, risks and assumptions associated with these forward-looking statements. In addition, please see "Caution Concerning Forward-Looking Statements" below.

During the nine months ended September 30, 2005 and 2004, we completed the acquisition of twelve and eight physician group practices, respectively. Our results of operations for the three and nine months ended September 30, 2005 and 2004 include the results of operations for these physician group practices from their respective dates of acquisition, and therefore are not comparable in some material respects.

On July 14, 2005, our Board of Directors awarded shares of restricted stock to key employees under the Company's 2004 Incentive Compensation Plan. Thus, for the three and nine months ended September 30, 2005, we incurred equity-based compensation expense as discussed in Note 6 of the Notes to the Condensed Consolidated Financial Statements. In prior periods, stock option awards, which did not require us to recognize equity-based compensation expense in our condensed consolidated statements of income, were the only form of equity-based compensation utilized by our Board. Accordingly, our results of operations for the three and nine month periods ended September 30, 2004 do not reflect any equity-based compensation expense.

Results of Operations

Three Months Ended September 30, 2005 as Compared to Three Months Ended September 30, 2004

Our net patient service revenue increased \$19.8 million, or 12.5%, to \$178.1 million for the three months ended September 30, 2005, as compared to \$158.3 million for the same period in 2004. Of this \$19.8 million increase, \$12.2 million, or 61.6%, was attributable to revenue generated from acquisitions completed after June 30, 2004. Same-unit net patient service revenue increased \$7.6 million, or 4.9%, for the three months ended September 30, 2005. The net increase in same-unit net patient service revenue was primarily the result of: (i) increased revenue of approximately \$4.4 million from a 4.0% increase in neonatal intensive care unit patient days; (ii) increased revenue of approximately \$3.5 million from volume growth in maternal-fetal, metabolic screening and other services, including hearing screens and newborn nursery services provided by existing practices; (iii) increased revenue of approximately \$470,000 related to hospital contract administrative fees due to expanded services in existing practices; and (iv) a net decrease in revenue of approximately \$770,000 due to a decline in revenue caused by a greater percentage of our patients being enrolled in government sponsored programs partially offset by improved managed care contracting and the flow through of revenue from modest price increases. Payments received from government-sponsored programs are substantially less than payments received from commercial insurance payors for equivalent services. This modest shift in our payor mix resulted in an increase in our estimated provision for contractual adjustments and uncollectibles for the three months ended September 30, 2005 as compared to the same period in 2004. Same units are those units at which we provided services for the entire current period and the entire comparable period.

Practice salaries and benefits increased \$10.5 million, or 11.8%, to \$99.1 million for the three months ended September 30, 2005, as compared to \$88.6 million for the same period in 2004. The increase was primarily attributable to: (i) costs associated with new physicians and other staff of \$7.2 million to support acquisition-related growth and volume growth at existing units; (ii) an increase in incentive compensation of \$2.3 million as a result of same unit growth and operational improvements at the physician practice level; and (iii) equity-based compensation of \$1.0 million related to awards of restricted stock.

Practice supplies and other operating expenses increased \$1.1 million, or 19.0%, to \$7.0 million for the three months ended September 30, 2005, as compared with \$5.9 million for the same period in 2004. The increase was primarily attributable to additional professional fees, maintenance costs and supply costs to support new and existing physician practices.

General and administrative expenses include all billing and collection functions and all other salaries, benefits, supplies and operating expenses not specifically related to the day-to-day operations of our physician group practices. General and administrative expenses increased \$4.9 million, or 24.3%, to \$24.9 million for the three months ended September 30, 2005, as compared to \$20.0 million for the same period in 2004. This \$4.9 million increase was primarily due to: (i) equity-based compensation of \$3.7 million related to awards of restricted stock and (ii) a \$1.2 million increase in salaries and benefits and other general and administrative expenses related to the continued growth of the Company.

Depreciation and amortization expense increased by approximately \$40,000, or 1.8%, to \$2,340,000 for the three months ended September 30, 2005, as compared to \$2,300,000 for the same period in 2004. This increase was primarily attributable to amortization of identifiable intangible assets related to our acquisitions.

Income from operations increased \$3.3 million, or 7.9%, to \$44.8 million for the three months ended September 30, 2005, as compared with \$41.5 million for the same period in 2004. Our operating margin decreased to 25.2% for the three months ended September 30, 2005, as compared to 26.2% for the same period in 2004. This net decline in our operating margin of 1.0% is attributable to a 2.7% decrease in operating margin due to equity-based compensation of \$4.7 million related to awards of restricted stock offset by improvements in operating margin of approximately 1.7% related to improved management of general and administrative expenses and a decrease in practice salaries and benefits as a percentage of revenue.

We recorded net interest expense of \$100,000 for the three months ended September 30, 2005, as compared with net interest expense of \$202,000 for the same period in 2004. The decrease in net interest expense is primarily due to higher investment income on outstanding investment balances for the three months ended September 30, 2005 as compared to the prior year period. Interest expense for the three months ended September 30, 2005 consisted primarily of interest charges, commitment fees and amortized debt costs associated with our \$225 million revolving credit agreement ("Line of Credit").

Our effective income tax rate was 37.25% for the three months ended September 30, 2005 and 2004.

Net income increased to \$28.1 million for the three months ended September 30, 2005, as compared to \$25.9 million for the same period in 2004. As compared to the 2004 period, net income for the three months ended September 30, 2005 was reduced by the \$3.0 million after-tax impact of equity-based compensation expense related to awards of restricted stock.

Diluted net income per common and common equivalent share was \$1.16 on weighted average shares of 24.1 million for the three months ended September 30, 2005, as compared to \$1.04 on weighted average shares of 25.0 million for the same period in 2004. Diluted net income per common and common equivalent share of \$1.16 for the three months ended September 30, 2005 includes the impact of equity-based compensation related to awards of restricted stock. The net decrease in weighted average shares outstanding was primarily due to the impact of shares repurchased during the fourth quarter of 2004 offset in part by the exercise of employee stock options and the issuance of shares under our employee stock purchase plans.

Nine Months Ended September 30, 2005 as Compared to Nine Months Ended September 30, 2004

Our net patient service revenue increased \$57.4 million, or 12.5%, to \$516.0 million for the nine months ended September 30, 2005, as compared to \$458.6 million for the same period in 2004. Of this \$57.4 million increase, \$30.2 million, or 52.6%, was attributable to revenue generated from acquisitions completed after June 30, 2004. Same-unit net patient service revenue increased \$27.2 million, or 6.2%, for the nine months ended September 30, 2005. The net increase in same-unit net patient service revenue was primarily the result of: (i) increased revenue of approximately \$14.6 million from a 4.7% increase in neonatal intensive care unit patient days; (ii) increased revenue of approximately \$12.7 million from volume growth in maternal-fetal services, metabolic screening services and other services, including hearing screens and newborn nursery services provided by existing practices; (iii) increased revenue of approximately \$2.2 million due to a decline in revenue caused by a greater percentage of our patients being enrolled in government sponsored programs partially offset by improved managed care contracting and the flow through of revenue from modest price increases. Payments received from government-sponsored programs are substantially less than payments received from commercial insurance payors for equivalent services. This shift in our payor mix resulted in an increase in our estimated provision for contractual adjustments and uncollectibles for the nine months ended

September 30, 2005 as compared to the same period in 2004. Same units are those units at which we provided services for the entire current period and the entire comparable period.

Practice salaries and benefits increased \$36.1 million, or 13.9%, to \$295.0 million for the nine months ended September 30, 2005, as compared to \$258.9 million for the same period in 2004. The increase was primarily attributable to: (i) costs associated with new physicians and other staff of \$27.5 million to support acquisition-related growth and volume growth at existing units; (ii) an increase in incentive compensation of \$7.6 million as a result of same unit growth and operational improvements at the physician practice level; and (iii) equity-based compensation of \$1.0 million related to awards of restricted stock.

Practice supplies and other operating expenses increased \$2.9 million, or 16.9%, to \$20.1 million for the nine months ended September 30, 2005, as compared with \$17.2 million for the same period in 2004. The increase was primarily attributable to additional professional fees, maintenance costs and supply costs to support new and existing physician practices.

General and administrative expenses include all billing and collection functions and all other salaries, benefits, supplies and operating expenses not specifically related to the day-to-day operations of our physician group practices. General and administrative expenses increased \$15.9 million, or 26.7%, to \$75.3 million for the nine months ended September 30, 2005, as compared to \$59.5 million for the same period in 2004. This \$15.9 million increase is due to: (i) a \$6.2 million increase in salaries and benefits and other general and administrative expenses associated with the continued growth of the Company; (ii) a \$6.0 million increase in our estimated liability reserves as a result of a settlement offer we made in connection with our pending national Medicaid and TRICARE investigation; and (iii) equity-based compensation of \$3.7 million related to awards of restricted stock.

Depreciation and amortization expense increased by \$516,000, or 7.4%, to \$7.5 million for the nine months ended September 30, 2005, as compared to \$7.0 million for the same period in 2004. This increase was primarily attributable to amortization of identifiable intangible assets related to our acquisitions.

Income from operations increased \$2.0 million, or 1.7%, to \$118.0 million for the nine months ended September 30, 2005, as compared with \$116.0 million for the same period in 2004. Our operating margin decreased to 22.9% for the nine months ended September 30, 2005, as compared to 25.3% for the same period in 2004. The decrease in our operating margin is primarily attributable to: (i) the \$6.0 million adjustment related to the settlement offer we made in connection with our pending national Medicaid and TRICARE investigation; and (ii) equity-based compensation of \$4.7 million related to awards of restricted stock.

We recorded net interest expense of \$1.4 million for the nine months ended September 30, 2005, as compared with net interest expense of \$500,000 for the same period in 2004. The increase in net interest expense is primarily due to increased borrowings under our Line of Credit to fund acquisitions made since the third quarter of 2004 and to repurchase shares of our common stock during the fourth quarter of 2004. Interest expense for the nine months ended September 30, 2005 consisted primarily of interest charges, commitment fees and amortized debt costs associated with our Line of Credit.

Our effective income tax rate was 37.25% for the nine months ended September 30, 2005 and 2004.

Net income increased to \$73.2 million for the nine months ended September 30, 2005, as compared to \$72.5 million for the same period in 2004. As compared to the 2004 period, net income for the nine months ended September 30, 2005 was reduced by: (i) the \$3.8 million after-tax impact of the adjustment related to the settlement offer we made in connection with our pending national Medicaid and TRICARE investigation; and (ii) the \$3.0 million after-tax impact of equity-based compensation expense related to awards of restricted stock.

Diluted net income per common and common equivalent share was \$3.07 on weighted average shares of 23.8 million for the nine months ended September 30, 2005, as compared to \$2.88 on weighted average shares of 25.2 million for the same period in 2004. Diluted net income per common and common equivalent share of \$3.07 for the nine months ended September 30, 2005 includes: (i) the impact of the adjustment related to the settlement of our pending national Medicaid and TRICARE investigation; and (ii) the impact of equity-based compensation related to awards of restricted stock. The net decrease in weighted average shares outstanding was primarily due to the impact of shares repurchased during 2004 offset in part by the exercise of employee stock options and the issuance of shares under our employee stock purchase plans.

Liquidity and Capital Resources

As of September 30, 2005, we had approximately \$4.8 million of cash and cash equivalents on hand as compared to \$7.0 million at December 31, 2004. In addition, we had working capital of approximately \$9.1 million at September 30, 2005, a decrease of \$12.1 million from working capital of \$21.2 million at December 31, 2004. This decrease in working capital was primarily the result of funds used for the acquisition of physician group practices and the repayment of our Line of Credit exceeding funds generated from operations and proceeds from the exercise of stock options and the issuance of stock under our employee stock purchase plans during the nine months ended September 30, 2005.

Our net cash provided from operating activities was \$114.6 million for the nine months ended September 30, 2005, as compared to net cash provided from operating activities of \$80.3 million for the same period in 2004. The improvement in our cash flow from operations for the nine months ended September 30, 2005 is primarily due to improved operating results excluding the non-cash impact of equity-based compensation expense and changes in our working capital components. For the nine months ended September 30, 2005, our significant working capital component changes are related to accounts receivable, accounts payable and accrued expenses, and income taxes payable.

During the nine months ended September 30, 2005, accounts receivable increased by \$2.0 million, as compared to an increase of \$14.2 million for the same period in 2004. Our days sales outstanding, or DSO, for accounts receivable at September 30, 2005 was 56.8 days, a decrease from 61.6 days at December 31, 2004. During the same period, we experienced a net increase in cash flow from operating activities related to accounts payable and accrued expenses of \$6.2 million primarily due to the \$6.0 million increase in our estimated liability reserves as a result of a settlement offer we made in connection with our pending national Medicaid and TRICARE investigation. In addition, we realized an increase in income taxes payable which increased our cash flow from operating activities by \$24.3 million. This increase in cash flow is primarily due to the timing of our tax payments.

Our accounts receivable are principally due from managed care payors, government payors, and other third party insurance payors. We track our collections from these sources, monitor the age of our accounts receivable, and make all reasonable efforts to collect outstanding accounts receivable through our systems, processes and personnel at our corporate and regional billing and collection offices. We use customary collection practices, including the use of outside collection agencies, for accounts receivable due from private pay patients when appropriate. Almost all of our accounts receivable adjustments consist of contractual adjustments due to the difference between gross amounts billed and the amounts allowed by our payors. Any amounts written off related to private pay patients are based on the specific facts and circumstances related to each individual patient account.

We maintain professional liability insurance policies with third-party insurers, subject to deductibles, exclusions and other restrictions. We self-insure our liabilities to pay deductibles under our professional liability insurance coverage through a wholly-owned captive insurance subsidiary. We record a liability for self-insured deductibles and an estimate of liabilities for claims incurred but not reported based on an actuarial valuation using historical loss patterns. Effective May 1, 2005, we obtained professional liability coverage that expires on May 1, 2006 with substantially similar terms as our previous policy which includes a provision which may result in additional premiums or a return of premiums based on our actual losses.

During the nine months ended September 30, 2005, our net cash flows used in financing activities consisted primarily of repayments on our Line of Credit partially offset by proceeds from the exercise of employee stock options and the purchase of common stock by employees participating in our employee stock purchase plans.

On March 11, 2005, we exercised an option under our Line of Credit to increase the aggregate commitments thereunder from \$150 million to \$225 million. Our Line of Credit matures in July 2009 and includes a \$25 million subfacility for the issuance of letters of credit. At our option, the Line of Credit bears interest at (i) the base rate (defined as the higher of the Federal Funds Rate plus .5% or the Bank of America prime rate) or (ii) the Eurodollar rate plus an applicable margin rate ranging from .75% to 1.75% based on our consolidated leverage ratio. Our Line of Credit is collateralized by substantially all of our assets. We are subject to certain covenants and restrictions specified in the Line of Credit, including covenants that require us to maintain a minimum level of net worth and that restrict us from paying dividends and making certain other distributions as specified therein. Failure to comply with these covenants and restrictions would constitute an event of default under the Line of Credit, notwithstanding our ability to meet our debt service obligations. Our Line of Credit includes various customary remedies for our lenders following an event of default. At September 30, 2005, we were in compliance with the financial covenants and other restrictions applicable to us under the Line of Credit. At September 30, 2005, we had no outstanding principal balance on our Line of Credit and outstanding letters of credit of \$16.0 million, which reduced the amount available on our Line of Credit.

The exercise of employee stock options and the purchase of common stock by employees participating in our employee stock purchase plans generated cash proceeds of \$34.2 million during the nine months ended September 30, 2005, as compared to \$27.3 million for the same period in 2004. Since stock option exercises are dependent on several factors, including the market price of our common stock, we cannot predict the timing and amount of any proceeds from future exercises.

During the nine months ended September 30, 2005, cash generated from our operating activities along with cash on hand were primarily used to fund the acquisition of twelve physician group practices for \$85.7 million, make repayments on our Line of Credit of \$54.0 million and to fund capital expenditures in the amount of \$5.6 million. Our capital expenditures were for computer and office equipment, software, furniture and other improvements at our corporate and regional offices.

On November 2, 2005, we announced that our Board of Directors authorized a share repurchase program that allows us to repurchase up to \$50 million of the Company's common stock. The program allows us to make open market purchases of the Company's shares from time to time subject to price, market and economic conditions and trading restrictions.

We anticipate that funds generated from operations, together with our current cash on hand, short-term investments and funds available under the Line of Credit, will be sufficient to complete our \$50 million share repurchase program and finance our working capital requirements, fund anticipated acquisitions and capital expenditures, and meet our contractual obligations for at least the next 12 months.

Caution Concerning Forward-Looking Statements

Certain information included or incorporated by reference in this Quarterly Report may be deemed to be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements may include, but are not limited to, statements relating to our objectives, plans and strategies, and all statements (other than statements of historical facts) that address activities, events or developments that we intend, expect, project, believe or anticipate will or may occur in the future are forward-looking statements. These statements are often characterized by terminology such as "believe," "hope," "may," "anticipate," "should," "intend," "plan," "will," "expect," "estimate," "project," "positioned," "strategy" and similar expressions and are based on assumptions and assessments made by our management in light of their experience and their perception of historical trends, current conditions, expected future developments and other factors they believe to be appropriate. Any forward-looking statements in this Quarterly Report are made as of the date hereof, and we undertake no duty to update or revise any such statements, whether as a result of new information, future events or otherwise. Forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties. Important factors that could cause actual results, developments and business decisions to differ materially from forward-looking statements are described in the Company's most recent Annual Report on Form 10-K, including the section entitled "Risk Factors."

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Our Line of Credit and an aircraft operating lease agreement are subject to market risk and interest rate changes. The Line of Credit bears interest at our option at (i) the base rate (defined as the higher of the Federal Funds Rate plus .5% or the Bank of America prime rate) or (ii) the Eurodollar rate plus an applicable margin rate ranging from .75% to 1.75% based on our consolidated leverage ratio. The aircraft operating lease bears interest at a LIBOR-based variable rate. We had no outstanding principal balance under our Line of Credit at September 30, 2005. The outstanding balance related to the aircraft operating lease totaled approximately \$4.5 million at September 30, 2005. Considering the total outstanding balance under the operating lease at September 30, 2005 of approximately \$4.5 million, a 1% change in interest rates would result in an impact to income before income taxes of approximately \$45,000 per year.

Item 4. Controls and Procedures.

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the costbenefit relationship of possible controls and procedures. Based on the foregoing, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective as of September 30, 2005.

There have been no changes in our internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

In June 2002, we received a written request from the Federal Trade Commission (the "FTC") to submit information on a voluntary basis in connection with an investigation of issues of competition related to our May 2001 acquisition of Magella and our business practices generally. In February 2003, we received additional information requests from the FTC in the form of a Subpoena and Civil Investigative Demand. Pursuant to these requests, we produced documents and information relating to the acquisition and our business practices in certain markets. We have also provided on a voluntary basis additional information and testimony on issues related to the investigation. At this time, the investigation remains active and ongoing and we are cooperating fully with the FTC.

Beginning in April 1999, we received requests from various federal and state investigators for information relating to our billing practices for services reimbursed by Medicaid, and the United States Department of Defense's TRICARE program for military dependants and retirees. Since then, a number of the individual state investigations were resolved through agreements to refund certain overpayments and reimburse certain costs to the states. In June 2003, we were advised by a United States Attorney's Office that it was conducting a civil investigation with respect to our Medicaid billing practices nationwide. This federal Medicaid investigation, the TRICARE investigation, and related state inquiries are being coordinated together and are active and ongoing.

In July 2005, we were informed by the United States Attorney's Office that the federal Medicaid investigation was initiated as a result of a complaint filed under seal by a third party, known as "qui tam" or "whistleblower" complaint, under the federal False Claims Act which permits private individuals to bring confidential actions on behalf of the government. Because the qui tam complaint is under seal, we have not been able to review it; however, we have been informed by the United States Attorney's Office that its civil investigation encompasses all matters raised by the complaint.

In April 2005, we made a settlement offer to federal and state authorities in connection with these matters. In accordance with Statement of Financial Accounting Standards No. 5, "Accounting for Contingencies," as a result of this offer, we increased our reserves relating to these matters by \$6.0 million during the three months ended March 31, 2005. Although we continue to cooperate fully with federal and state authorities, there can be no assurance that our present offer will result in a settlement of these matters and the eventual resulting losses will not exceed our established reserves.

Currently, we cannot predict the timing or outcome of any of these pending investigations and inquiries and whether they will have, individually or in the aggregate, a material adverse effect on our business, financial condition, results of operations or the trading price of our common stock.

We also expect that additional audits, inquiries and investigations from government authorities and agencies will continue to occur in the ordinary course of our business. Such audits, inquiries and investigations and their ultimate resolutions, individually or in the aggregate, could have a material adverse effect on our business, financial condition, results of operations or the trading price of our common stock.

In the ordinary course of our business, we become involved in pending and threatened legal actions and proceedings, most of which involve claims of medical malpractice related to medical services provided by our affiliated physicians. Our contracts with hospitals generally require us to indemnify them and their affiliates for losses resulting from the negligence of our affiliated physicians. We may also become subject to other lawsuits which could involve large claims and significant defense costs. We believe, based upon our review of pending actions and proceedings, that the outcome of such legal actions and proceedings will not have a material adverse effect on our business, financial condition, results of operations or the trading price of our common stock. The outcome of such actions and proceedings, however, cannot be predicted with certainty and an unfavorable resolution of one or more of them could have a material adverse effect on our business of operations or the trading price of our common stock.

Although we currently maintain liability insurance coverage intended to cover professional liability and certain other claims, this coverage generally must be renewed annually and may not continue to be available to us in future years at acceptable costs and on favorable terms. In addition, we cannot assure that our insurance coverage will be adequate to cover liabilities arising out of claims asserted against us in the future where the outcomes of such claims are unfavorable. With respect to professional liability insurance, we self-insure our liabilities to pay deductibles through a wholly-owned captive insurance subsidiary. Liabilities in excess of our insurance coverage, including coverage for professional liability and other claims, could have a material adverse effect on our business, financial condition and results of operations.

Item 6. Exhibits.

See Exhibit Index.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

	PEDIATRIX MEDICAL GROUP, INC.
Date: November 7, 2005	By: /s/ Roger J. Medel, M.D. Roger J. Medel, M.D., Chief Executive Officer (principal executive officer)
Date: November 7, 2005	By: /s/ Karl B. Wagner Karl B. Wagner, Chief Financial Officer (principal financial officer)

EXHIBIT INDEX

Exhibit No.	Description
2.1	Agreement and Plan of Merger dated as of February 14, 2001, among Pediatrix Medical Group, Inc., Infant Acquisition Corp. and Magella Healthcare Corporation (incorporated by reference to Exhibit 2.1 to Pediatrix's Current Report on Form 8-K dated February 15, 2001).
3.1	Amended and Restated Articles of Incorporation of Pediatrix (incorporated by reference to Exhibit 3.1 to Pediatrix's Registration Statement on Form S-1 (Registration No. 33-95086)).
3.2	Amended and Restated Bylaws of Pediatrix (incorporated by reference to Exhibit 3.2 to Pediatrix's Quarterly Report on Form 10-Q for the period ended June 30, 2000).
3.3	Articles of Designation of Series A Junior Participating Preferred Stock of Pediatrix (incorporated by reference to Exhibit 3.1 to Pediatrix's Current Report on Form 8-K dated March 31, 1999).
4.1	Rights Agreement, dated as of March 31, 1999, between Pediatrix and BankBoston, N.A., as rights agent including the form of Articles of Designations of Series A Junior Participating Preferred Stock and the form of Rights Certificate (incorporated by reference to Exhibit 4.1 to Pediatrix's Current Report on Form 8-K dated March 31, 1999).
31.1+	Certification of Chief Executive Officer pursuant to Securities Exchange Act Rule 13a-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2+	Certification of Chief Financial Officer pursuant to Securities Exchange Act Rule 13a-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
221	Cartification numericant to 10 U.S.C. Section 1250, as adopted numericant to Section 006 of the Sarbanes Order Act of 2002

32+ Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

+ Filed herewith.

CERTIFICATIONS

I, Roger J. Medel, M.D., certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Pediatrix Medical Group, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(f)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Date: November 7, 2005

CERTIFICATIONS

I, Karl B. Wagner, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Pediatrix Medical Group, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Certification Pursuant to 18 U.S.C Section 1350

(Adopted by Section 906 of the Sarbanes-Oxley Act of 2002)

In connection with the Quarterly Report of Pediatrix Medical Group, Inc. on Form 10-Q for the quarter ended September 30, 2005 (the "Report"), each of the undersigned hereby certifies, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that (i) the Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934 and (ii) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of Pediatrix Medical Group, Inc.

A signed original of this written statement required by Section 906 has been provided to Pediatrix Medical Group, Inc. and will be retained by Pediatrix Medical Group, Inc. and furnished to the Securities and Exchange Commission or its staff upon request.
