The accompanying notes are an integral part of these Consolidated Financial Statements.

# Pediatrix Medical Group, Inc. Notes to Consolidated Financial Statements September 30, 2023 (Unaudited)

# 1. Basis of Presentation:

On July 1, 2022, effective after the close of the market, the Company changed its corporate name from "Mednax, Inc." to "Pediatrix Medical Group, Inc." signifying the Company's return to its core focus in caring for women, babies and children. The Company's common stock continues to trade on the New York Stock Exchange under the ticker symbol "MD."

The accompanying unaudited Consolidated Financial Statements of the Company and the notes thereto presented in this Form 10-Q have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC") applicable to interim financial statements, and do not include all disclosures required by accounting principles generally accepted in the United States of America ("GAAP") for complete financial statements. In the opinion of management, these financial statements include all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of the results of interim periods. The financial statements include all the accounts of Pediatrix Medical Group, Inc. and its consolidated subsidiaries (collectively, "PMG") together with the accounts of PMG's affiliated business corporations or professional associations, professional corporations, limited liability companies and partnerships (the "affiliated professional contractors"). Certain subsidiaries of PMG have contractual management arrangements with its affiliated professional contractors, which are separate legal entities that provide physician services in certain states. The Company ceased providing services in Puerto Rico effective December 31, 2022. The terms "Pediatrix" and the "Company" refer collectively to Pediatrix Medical Group Inc., its subsidiaries and the affiliated professional contractors.

The Company is a party to a joint venture in which it owns a 37.5% economic interest. The Company accounts for this joint venture under the equity method of accounting because the Company exercises significant influence over, but does not control, this entity. The Company was also a party to another joint venture in which it owned a 51% economic interest and for which it was deemed the primary beneficiary. This joint venture was dissolved in February 2022. The operating results related to this joint venture prior to the dissolution and impacts from such dissolution were not material.

The consolidated results of operations for the interim periods presented are not necessarily indicative of the results to be experienced for the entire fiscal year. In addition, the accompanying unaudited Consolidated Financial Statements and the notes thereto should be read in conjunction with the Consolidated Financial Statements and the notes thereto included in the Company's most recent Annual Report on Form 10-K (the "Form 10-K").

# 2. Cash Equivalents and Investments:

As of September 30, 2023 and December 31, 2022, the Company's cash equivalents consisted entirely of money market funds totaling \$1.2 million and \$1.4 million, respectively.

Investments held are all classified as current and at September 30, 2023 and December 31, 2022 are summarized as follows (in thousands):

	Septeml	September 30, 2023		mber 31, 2022
Corporate securities	\$	58,830	\$	61,385
Municipal debt securities		13,419		14,377
U.S. Treasury securities		21,888		10,205
Certificates of deposit		3,906		3,710
Federal home loan securities		5,498		3,562
	\$	103,541	\$	93,239

# 3. Fair Value Measurements:

The accounting guidance establishes a fair value hierarchy that prioritizes valuation inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of three levels:

Level 1 – inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2 – inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The following table presents information about the Company's financial instruments that are accounted for at fair value on a recurring basis at September 30, 2023 and December 31, 2022 (in thousands):

		Fair	Value
	Fair Value Category	September 30, 2023	December 31, 2022
Assets:			
Money market funds	Level 1	\$ 1,201	\$ 1,415
Short-term investments	Level 2	103,541	93,239
Mutual Funds	Level 1	15.851	14.544

The following table presents information about the Company's financial instruments that are not carried at fair value at September 30, 2023 and December 31, 2022 (in thousands):

	September	r 30, 2	2023		December 31, 2022		
	Carrying Fair Amount Value		Carrying Amount		Fair Value		
Liabilities:							
2030 Notes	\$ 400,000	\$	352,680	\$	400.000	\$	344.000

The carrying amounts of cash equivalents, accounts receivable and accounts payable and accrued expenses approximate fair value due to the short maturities of the respective instruments. The carrying value of the line of credit approximates fair value. If the Company's line of credit was measured at fair value, it would be categorized as Level 2 in the fair value hierarchy.

# 4. Accounts Receivable and Net Revenue:

Accounts receivable, net consists of the following (in thousands):

	Septem	ber 30, 2023	Dec	ember 31, 2022
Gross accounts receivable	\$	1,448,620	\$	1,548,492
Allowance for contractual adjustments and uncollectibles		(1,171,268)		(1,251,705)
	\$	277,352	\$	296,787

Patient service revenue is recognized at the time services are provided by the Company's affiliated physicians. The Company's performance obligations related to the delivery of services to patients are satisfied at the time of service. Accordingly, there are no performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period with respect to patient service revenue. Almost all of the Company's patient service revenue is reimbursed by government-sponsored healthcare programs ("GHC Programs") and third-party insurance payors. Payments for services rendered to the Company's patients are generally less than billed charges. The Company monitors its revenue and receivables from these sources and records an estimated contractual allowance to properly account for the anticipated differences between billed and reimbursed amounts.

Accordingly, patient service revenue is presented net of an estimated provision for contractual adjustments and uncollectibles. The Company estimates allowances for contractual adjustments and uncollectibles on accounts receivable based upon historical experience and other factors, including days sales outstanding ("DSO") for accounts receivable, evaluation of expected adjustments and delinquency rates, past adjustments and collection experience in relation to amounts billed, an aging of accounts receivable, current contract and reimbursement terms, changes in payor mix and other relevant information. Contractual adjustments result from the difference between the physician rates for services performed and the reimbursements by GHC Programs and third-party insurance payors for such services.

Collection of patient service revenue the Company expects to receive is normally a function of providing complete and correct billing information to the GHC Programs and third-party insurance payors within the various filing deadlines and typically occurs within 30 to 60 days of billing.

Some of the Company's hospital agreements require hospitals to pay the Company administrative fees. Some agreements provide for fees if the hospital does not generate sufficient patient volume in order to guarantee that the Company receives a specified minimum revenue level. The Company also receives fees from hospitals for administrative services performed by its affiliated physicians providing medical director or other services at the hospital.

The following table summarizes the Company's net revenue by category (in thousands):

	Three Months Ended September 30,			Nine Mont Septemb	ed
	 2023		2022	 2023	2022
Net patient service revenue	\$ 437,321	\$	421,085	\$ 1,290,888	\$ 1,245,627
Hospital contract administrative fees	68,712		67,418	204,286	196,425
Other revenue	579		1,412	3,023	16,125
	\$ 506,612	\$	489,915	\$ 1,498,197	\$ 1,458,177

The approximate percentage of net patient service revenue by type of payor was as follows:

	Three Months I September 3		Nine Months I September	
	2023	2022	2023	2022
Contracted managed care	67 %	65 %	67 %	67 %
Government	25	28	25	26
Other third-parties	5	5	6	5
Private-pay patients	3	2	2	2
	100 %	100 %	100 %	100 %

# 5. Accounts Payable and Accrued Expenses:

Accounts payable and accrued expenses consist of the following (in thousands):

	Sept	ember 30, 2023	Dece	mber 31, 2022
Accounts payable	\$	31,696	\$	31,857
Accrued salaries and incentive compensation		150,014		197,831
Accrued payroll taxes and benefits		35,366		34,983
Accrued professional liabilities		30,169		32,232
Accrued interest		3,204		8,921
Other accrued expenses		52,134		68,401
	\$	302,583	\$	374,225

The net decrease in accrued salaries and incentive compensation of \$47.8 million, from December 31, 2022 to September 30, 2023, is primarily due to the payment of performance-based incentive compensation, principally to the Company's affiliated physicians, partially offset by performance-based incentive compensation accrued during the nine months ended September 30, 2023. A majority of the Company's payments for performance-based incentive compensation is paid annually during the first quarter.

# 6. Line of Credit and Long-Term Debt:

On February 11, 2022, the Company issued \$400.0 million of 5.375% unsecured senior notes due 2030 (the "2030 Notes"). The Company used the net proceeds from the issuance of the 2030 Notes, together with \$100.0 million drawn under the Revolving Credit Line (as defined below), \$250.0 million of Term A Loan (as defined below) and approximately \$308.0 million of cash on hand, to redeem (the "Redemption") the 6.25% senior unsecured notes due 2027, which had an outstanding principal balance of \$1.0 billion, and to pay costs, fees and expenses associated with the Redemption and the Credit Agreement Amendment (as defined below).

Interest on the 2030 Notes accrues at the rate of 5.375% per annum, or \$21.5 million, and is payable semi-annually in arrears on February 15 and August 15, beginning on August 15, 2022. The Company's obligations under the 2030 Notes are guaranteed on an unsecured senior basis by the same subsidiaries and affiliated professional contractors that guarantee the Amended Credit Agreement (as defined below). The indenture under which the 2030 Notes are issued, among other things, limits the Company's ability to (1) incur liens and (2) enter into sale and lease-back transactions, and also limits the Company's ability to merge or dispose of all or substantially all of its assets, in all cases, subject to a number of customary exceptions. Although the Company is not required to make mandatory redemption or sinking fund payments with respect to the 2030 Notes, upon the occurrence of a change in control, the Company may be required to repurchase the 2030 Notes at a purchase price equal to 101% of the aggregate principal amount of the 2030 Notes repurchased plus accrued and unpaid interest.

Also in connection with the Redemption, the Company amended its credit agreement (the "Credit Agreement", and such amendment, the "Credit Agreement Amendment"), concurrently with the issuance of the 2030 Notes. The Credit Agreement Amendment, among other things, (i) refinanced the prior unsecured revolving credit facility with a \$450 million unsecured revolving credit facility, including a \$37.5 million sub-facility for the issuance of letters of credit (the "Revolving Credit Line"), and a \$250 million

term A loan facility ("Term A Loan") and (ii) removed JPMorgan Chase Bank, N.A., as the administrative agent under the Credit Agreement and appointed Bank of America, N.A. as the administrative agent for the lenders.

The Credit Agreement, as amended by the Credit Agreement Amendment (the "Amended Credit Agreement") matures on February 11, 2027 and is guaranteed on an unsecured basis by substantially all of the Company's subsidiaries and affiliated professional contractors. At the Company's option, borrowings under the Amended Credit Agreement bear interest at (i) the Alternate Base Rate (defined as the highest of (a) the prime rate as announced by Bank of America, N.A., (b) the Federal Funds Rate plus 0.50% and (c) Term Secured Overnight Financing Rate ("SOFR") for an interest period of one month plus 1.00% with a 1.00% floor) plus an applicable margin rate of 0.50% for the first two fiscal quarters after the date of the Credit Agreement Amendment, and thereafter at an applicable margin rate ranging from 0.125% to 0.750% based on the Company's consolidated net leverage ratio or (ii) Term SOFR rate (calculated as the Secured Overnight Financing Rate published on the applicable Reuters screen page plus a spread adjustment of 0.10%, 0.15% or 0.25% depending on if the Company selects a one-month, three-month or six-month interest period, respectively, for the applicable loan with a 0% floor), plus an applicable margin rate of 1.50% for the first two full fiscal quarters after the date of the Credit Agreement Amendment, and thereafter at an applicable margin rate ranging from 1.125% to 1.750% based on the Company's consolidated net leverage ratio. The Amended Credit Agreement also provides for other customary fees and charges, including an unused commitment fee with respect to the Revolving Credit Line ranging from 0.150% to 0.200% of the unused lending commitments under the Revolving Credit Line, based on the Company's consolidated net leverage ratio.

The Amended Credit Agreement contains customary covenants and restrictions, including covenants that require the Company to maintain a minimum interest coverage ratio, a maximum consolidated net leverage ratio and to comply with laws, and restrictions on the ability to pay dividends, incur indebtedness or liens and make certain other distributions subject to baskets and exceptions, in each case, as specified therein. Failure to comply with these covenants would constitute an event of default under the Amended Credit Agreement, notwithstanding the ability of the Company to meet its debt service obligations. The Amended Credit Agreement includes various customary remedies for the lenders following an event of default, including the acceleration of repayment of outstanding amounts under the Amended Credit Agreement. In addition, the Company may increase the principal amount of the Revolving Credit Line or incur additional term loans under the Amended Credit Agreement in an aggregate principal amount such that on a pro forma basis after giving effect to such increase or additional term loans, the Company would be in compliance with the financial covenants, subject to the satisfaction of specified conditions and additional caps in the event that the Amended Credit Agreement is secured.

At September 30, 2023, the Company had an outstanding principal balance on the Amended Credit Agreement of \$231.3 million, comprised solely of the Term A Loan. The Company had \$450.0 million available on its Amended Credit Agreement at September 30, 2023.

At September 30, 2023, the Company had an outstanding principal balance of \$400.0 million on the 2030 Notes.

# 7. Common and Common Equivalent Shares:

Basic net income per common share is calculated by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per common share is calculated by dividing net income by the weighted average number of common and potential common shares outstanding during the period. Potential common shares consist of outstanding restricted stock and stock options and is calculated using the treasury stock method.

The calculation of shares used in the basic and diluted net income per common share calculation for the three and nine months ended September 30, 2023 and 2022 is as follows (in thousands):

	Three Months September		Nine Montl Septemb	
	2023	2022	2023	2022
Weighted average number of common shares outstanding	82,543	82,126	82,127	84,122
Weighted average number of dilutive common share equivalents	407	650	365	699
Weighted average number of common and common equivalent shares outstanding	82,950	82,776	82,492	84,821
Antidilutive securities (restricted stock and stock options) not included in the diluted net income per common share calculation	888	1	1,201	273

# 8. Stock Incentive Plans and Stock Purchase Plans:

The Company's Amended and Restated 2008 Incentive Compensation Plan (the "Amended and Restated 2008 Incentive Plan") provides for grants of stock options, stock appreciation rights, restricted stock, deferred stock, and other stock-related awards and performance awards that may be settled in cash, stock or other property.

Under the Amended and Restated 2008 Incentive Plan, options to purchase shares of common stock may be granted at a price not less than the fair market value of the shares on the date of grant. The options must be exercised within 10 years from the date of grant and generally become exercisable on a pro rata basis over a three-year period from the date of grant. The Company issues new shares of its common stock upon exercise of its stock options. Restricted stock awards generally vest over periods of three years upon the fulfillment of specified service-based conditions and in certain instances performance-based conditions. Deferred stock awards generally vest upon the satisfaction of specified performance-based conditions and service-based conditions. The Company recognizes compensation expense related to its restricted stock and deferred stock awards ratably over the corresponding vesting periods. During the nine months ended September 30, 2023, the Company granted 0.8 million shares of restricted stock to its employees and non-employee directors under the Amended and Restated 2008 Incentive Plan. At September 30, 2023, the Company had 8.1 million shares available for future grants and awards under the Amended and Restated 2008 Incentive Plan.

Under the Company's Amended and Restated 1996 Non-Qualified Employee Stock Purchase Plan, as amended (the "ESPP"), employees are permitted to purchase the Company's common stock at 85% of market value on January 1st, April 1st, July 1st and October 1st of each year. Under the Company's 2015 Non-Qualified Stock Purchase Plan (the "SPP"), certain eligible non-employee service providers are permitted to purchase the Company's common stock at 90% of market value on January 1st, April 1st, July 1st and October 1st of each year.

The Company recognizes stock-based compensation expense for the discount received by participating employees and non-employee service providers. During the nine months ended September 30, 2023, approximately 0.3 million shares were issued under the ESPP. At September 30, 2023, the Company had approximately 2.2 million shares reserved for issuance under the ESPP. At September 30, 2023, the Company had approximately 61,000 shares in the aggregate reserved for issuance under the SPP. No shares have been issued under the SPP since 2020.

During the three and nine months ended September 30, 2023 and 2022, the Company recognized stock-based compensation expense of \$3.2 million and \$9.3 million and \$4.1 million and \$12.9 million, respectively.

# 9. Common Stock Repurchase Programs:

In July 2013, the Company's Board of Directors authorized the repurchase of shares of the Company's common stock up to an amount sufficient to offset the dilutive impact from the issuance of shares under the Company's equity compensation programs. The share repurchase program allows the Company to make open market purchases from time-to-time based on general economic and market conditions and trading restrictions. The repurchase program also allows for the repurchase of shares of the Company's common stock to offset the dilutive impact from the issuance of shares, if any, related to the Company's acquisition program. No shares were purchased under this program during the nine months ended September 30, 2023.

In August 2018, the Company announced that its Board of Directors had authorized the repurchase of up to \$500.0 million of the Company's common stock in addition to its existing share repurchase program, of which \$5.5 million remained available for repurchase as of December 31, 2022. Under this share repurchase program, during the nine months ended September 30, 2023, the Company purchased a nominal number of shares of its common stock for \$0.9 million representing shares withheld to satisfy minimum statutory withholding obligations in connection with the vesting of restricted stock, resulting in \$4.6 million remaining available for repurchase under this authorization as of September 30, 2023.

The Company intends to utilize various methods to effect any future share repurchases, including, among others, open market purchases and accelerated share repurchase programs. The amount and timing of repurchases will depend upon several factors, including general economic and market conditions and trading restrictions.

# 10. Coronavirus Pandemic ("COVID-19"):

COVID-19 has had an impact on the demand for medical services provided by the Company's affiliated clinicians. Beginning in mid-March 2020 and throughout the second quarter of 2020, the Company's operating results were significantly impacted by COVID-19, but volumes began to normalize in mid-2020 and substantially recovered throughout 2020 with no material impacts from COVID-19 or its variants since that time. However, due to the continued uncertainties surrounding the timeline of and impacts from COVID-19 and with multiple variant strains still circulating, the Company is unable to predict the ultimate impact of COVID-19 on its business, financial condition, results of operations, cash flows and the trading price of its securities at this time.

# CARES Act

In March 2020, the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was signed into law. The CARES Act is a relief package intended to assist many aspects of the American economy, including providing financial aid to the healthcare industry to reimburse healthcare providers for lost revenue and expenses attributable to COVID-19. The Department of Health and Human Services is administering this program and began disbursing funds in April 2020, of which the Company's affiliated physician practices within continuing operations recognized an aggregate of \$0.3 million and \$11.4 million during the three and nine months ended September 30, 2022, respectively.

# 11. Commitments and Contingencies:

The Company expects that audits, inquiries and investigations from government authorities and agencies will occur in the ordinary course of business. Such audits, inquiries and investigations and their ultimate resolutions, individually or in the aggregate, could have a material adverse effect on the Company's business, financial condition, results of operations, cash flows and the trading price of its securities. The Company has not included an accrual for these matters as of September 30, 2023 in its Consolidated Financial Statements, as the variables affecting any potential eventual liability depend on the currently unknown facts and circumstances that arise out of, and are specific to, any particular future audit, inquiry and investigation and cannot be reasonably estimated at this time.

In the ordinary course of business, the Company becomes involved in pending and threatened legal actions and proceedings, most of which involve claims of medical malpractice related to medical services provided by the Company's affiliated physicians. The Company's contracts with hospitals generally require the Company to indemnify them and their affiliates for losses resulting from the negligence of the Company's affiliated physicians. The Company may also become subject to other lawsuits which could involve large claims and significant costs. The Company believes, based upon a review of pending actions and proceedings, that the outcome of such legal actions and proceedings will not have a material adverse effect on its business, financial condition, results of operations, cash flows and the trading price of its securities. The outcome of such actions and proceedings, however, cannot be predicted with certainty and an unfavorable resolution of one or more of them could have a material adverse effect on the Company's business, financial condition, results of operations, cash flows and the trading price of its securities.

Although the Company currently maintains liability insurance coverage intended to cover professional liability and certain other claims, the Company cannot assure that its insurance coverage will be adequate to cover liabilities arising out of claims asserted against it in the future where the outcomes of such claims are unfavorable. With respect to professional liability risk, the Company generally self-insures a portion of this risk through its wholly owned captive insurance subsidiary. Liabilities in excess of the Company's insurance coverage, including coverage for professional liability and certain other claims, could have a material adverse effect on the Company's business, financial condition, results of operations, cash flows and the trading price of its securities.

#### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion highlights the principal factors that have affected our financial condition and results of operations, as well as our liquidity and capital resources, for the periods described. This discussion should be read in conjunction with the unaudited Consolidated Financial Statements and the notes thereto included in this Quarterly Report. In addition, reference is made to our audited consolidated financial statements and notes thereto and related Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022, filed with the Securities and Exchange Commission on February 17, 2023 (the "2022 Form 10-K"). As used in this Quarterly Report, the terms "Pediatrix", the "Company", "we", "us" and "our" refer to the parent company, Pediatrix Medical Group, Inc., a Florida corporation, and the consolidated subsidiaries through which its businesses are actually conducted (collectively, "PMG"), together with PMG's affiliated business corporations or professional associations, professional corporations, limited liability companies and partnerships ("affiliated professional contractors"). Certain subsidiaries of PMG have contracts with our affiliated professional contractors, which are separate legal entities that provide physician services in certain states. We ceased providing services in Puerto Rico on December 31, 2022. The following discussion contains forward-looking statements. Please see the Company's 2022 Form 10-K, including Item 1A, Risk Factors, for a discussion of the uncertainties, risks and assumptions associated with these forward-looking statements. In addition, please see "Caution Concerning Forward-Looking Statements" below.

#### Overview

Pediatrix (formerly known as Mednax, Inc.) is a leading provider of physician services including newborn, maternal-fetal, pediatric cardiology and other pediatric subspecialty care. Our national network is comprised of affiliated physicians who provide clinical care in 37 states. We ceased providing services in Puerto Rico on December 31, 2022. Our affiliated physicians provide neonatal clinical care, primarily within hospital-based neonatal intensive care units ("NICUs"), to babies born prematurely or with medical complications; and maternal-fetal and obstetrical medical care to expectant mothers experiencing complicated pregnancies, primarily in areas where our affiliated neonatal physicians practice. Our network also includes other pediatric subspecialists, including those who provide pediatric intensive care, pediatric cardiology care, hospital-based pediatric care, pediatric surgical care, pediatric ear, nose and throat, pediatric ophthalmology, pediatric urology services and pediatric primary and urgent care.

#### General Economic Conditions and Other Factors

Our operations and performance depend significantly on economic conditions. During the three months ended September 30, 2023, the percentage of our patient service revenue being reimbursed under government-sponsored healthcare programs ("GHC Programs") decreased as compared to the three months ended September 30, 2022. However, we could experience shifts toward GHC Programs if changes occur in economic behaviors or population demographics within geographic locations in which we provide services, including an increase in unemployment and underemployment as well as losses of commercial health insurance or if there are additional impacts from COVID-19 or its variants. Payments received from GHC Programs are substantially less for equivalent services than payments received from commercial insurance payors. In addition, costs of managed care premiums and patient responsibility amounts continue to rise, and accordingly, we may experience lower net revenue resulting from increased bad debt due to patients' inability to pay for certain services.

# "Surprise" Billing Legislation

In late 2020, Congress enacted legislation intended to protect patients from "surprise" medical bills when services are furnished by providers who are not in network with the patient's insurer (the "No Surprises Act" or the "NSA"). Effective January 1, 2022, if the patient's insurance plan is subject to the NSA, providers are not permitted to send patients an unexpected or "surprise" medical bill that arises from out-of-network emergency care provided at certain out-of-network facilities or at certain in-network facilities by out-of-network emergency providers, as well as out-of-network nonemergency care provided at certain in-network facilities without the patient's informed consent. Many states have legislation on this topic and will continue to modify and review their laws pertaining to surprise billing.

Under the NSA, patients are required to pay no more than the in-network cost-sharing amount. Insurers are required to calculate the patient's total cost-sharing amount pursuant to rules set forth in the NSA and its implementing regulations which, in some cases, can be calculated by reference to the applicable qualifying payment amount ("QPA") for the items or services received. Patient cost-sharing amounts for items and services subject to the NSA count toward the patient's health plan deductible and out-of-pocket cost-sharing limits. For claims subject to the NSA, providers are generally not permitted to balance bill patients beyond this cost-sharing amount. An out-of-network provider is only permitted to bill a patient more than the cost-sharing amount allowed under the NSA for certain types of services if the provider satisfies all aspects of an informed consent process set forth in the NSA's implementing regulations. Providers that violate these surprise billing prohibitions may be subject to state enforcement action or federal civil monetary penalties.

For claims subject to the NSA, including many emergency care services, out of network providers will be paid an amount determined by the patient's insurer; if a provider is not satisfied with the amount paid for the services, the provider can pursue recourse through an independent dispute resolution ("IDR") process. The outcome of each IDR dispute is generally binding on both the provider and payor with respect to the particular claims at issue in that dispute but may not affect an insurer's future offers of payment. In July 2021 and October 2021, the United States Department of Health and Human Services, Department of Labor and Department of Treasury (the "Departments") issued interim final rules implementing the NSA. Certain provisions of the October 2021 rule were vacated by a federal district court in the Eastern District of Texas in February 2022. In August 2022, the Departments issued a final rule and corresponding guidance replacing the vacated provisions of the October 2021 interim final rule. Provisions of this final rule were vacated by the federal court in the Eastern District of Texas in February 2023. The Departments are currently appealing that decision. In August 2023, the federal court in the Eastern District of Texas vacated provisions of the July 2021 interim final rule relating to the methodology for calculating QPAs. The Departments are currently appealing that decision. The outcome of the Departments' pending legal appeals and the content of the additional rules and guidance that the

Departments plan to issue in the coming months and years, including the Departments' proposed IDR procedure rule issued on October 27, 2023, may affect our future likelihood of success in IDR and the amount of reimbursement we receive through IDR. Accordingly, we cannot predict how these IDR results will compare to the rates that our affiliated physicians customarily receive for their services.

These measures could limit the amount we can charge and recover for services we furnish where we have not contracted with the patient's insurer, and therefore could have a material adverse effect on our business, financial condition, results of operations, cash flows and the trading price of our securities. Moreover, these measures could affect our ability to contract with certain payors and under historically similar terms and may cause, and the prospect of these changes may have caused, payors to terminate their contracts with us and our affiliated practices, further affecting our business, financial condition, results of operations, cash flows and the trading price of our securities.

# **Healthcare Reform**

The Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act (collectively the "ACA") have altered how health care is delivered and reimbursed in the U.S. and contain various provisions, including the establishment of health insurance exchanges to facilitate the purchase of qualified health plans, expanded Medicaid eligibility, subsidized insurance premiums and additional requirements and incentives for businesses to provide healthcare benefits. Other provisions have expanded the scope and reach of the Frederal Civil False Claims Act and other healthcare fraud and abuse laws. Moreover, we could be affected by potential changes to various aspects of the ACA, including changes to subsidies, healthcare insurance marketplaces and Medicaid expansion.

The status of the ACA may be subject to change as a result of political, legislative, regulatory, and administrative developments, as well as judicial proceedings. While there have been multiple attempts to repeal or amend the ACA through legislative action and legal challenges, legislative attempts to completely repeal the ACA have been unsuccessful to date, and on June 17, 2021, the United States Supreme Court dismissed the most recent judicial challenge to the ACA brought by several states without specifically ruling on the constitutionality of the ACA.

Another potentially existential challenge to the ACA is advancing in federal courts. Specifically, in *Braidwood Management v. Becerra*, the plaintiffs argue that the ACA's requirement that insurance cover certain preventive services without cost sharing is unconstitutional. In September 2022, a federal district court in Texas ruled partly in favor of the plaintiffs and partly in favor of the Department of Health and Human Services, which is defending the ACA, finding, among other things, that the requirement that self-funded plans and insurers cover certain preventive services violates the plaintiffs' rights under the Religious Freedom Restoration Act. The federal government appealed this decision to the Fifth Circuit Court of Appeals and the case may ultimately be resolved by the United States Supreme Court. If the case succeeds, millions of Americans could lose access to preventive care guaranteed by the ACA or be forced to pay out of pocket for these services. We cannot say for certain whether there will be additional future challenges to the ACA or what impact, if any, such challenges may have on our business. Changes resulting from these proceedings, and any legislative or administrative change to the current healthcare financing system, could have a material adverse effect on our business, financial condition, results of operations, cash flows and the trading price of our securities.

In addition to the ACA, there could be changes to other GHC Programs, such as a change to the Medicaid program design or Medicaid coverage and reimbursement rates set forth under federal or state law. Historically, Congress and the Administration have sought to convert Medicaid into a block grant or to institute per capita spending caps, among other things. These changes, if implemented, could eliminate the guarantee that everyone who is eligible and applies for Medicaid benefits would receive them and could potentially give states new authority to restrict eligibility, cut benefits and/or make it more difficult for people to enroll. Additionally, several states are considering and pursuing changes to their Medicaid programs, such as requiring recipients to engage in employment or education activities as a condition of eligibility for most adults, disenrolling recipients for failure to pay a premium, or adjusting premium amounts based on income. Many states have transitioned a substantial portion of their Medicaid program beneficiaries into Managed Medicaid Plans, which are administered by commercial insurance companies. Managed Medicaid Plans have some flexibility to set rates for providers, but many states require minimum provider rates in their contracts with such plans. In July of each year, CMS releases the annual Medicaid Managed Care Rate Development Guide which provides federal baseline rules for setting reimbursement rates in managed care plans. We could be affected by lower reimbursement rates in some or all of the Managed Medicaid Plans with which we participate. We could also be materially impacted if we are dropped from the provider network in one or more of the Managed Medicaid Plans with which we currently participate.

We cannot predict with any assurance the ultimate effect of these laws and resulting changes to payments under GHC Programs, nor can we provide any assurance that they will not have a material adverse effect on our business, financial condition, results of operations, cash flows and the trading price of our securities. Further, any fiscal tightening impacting GHC Programs or changes to the structure of any GHC Programs could have a material adverse effect on our financial condition, results of operations, cash flows and the trading price of our securities.

Finally, the expiration of the federal government's national emergency and public health emergency declarations in May 2023 may impact the coverage for and access to certain services for Medicaid patients. Expiration of the national emergency and public health emergency declarations will also end waivers for the provision of certain services, and returning our services to a pre-pandemic regulatory state similarly may increase our exposure to legal, regulatory, compliance and clinical risks.

# **Medicaid Expansion**

The ACA also allows states to expand their Medicaid programs through federal payments that fund most of the cost of increasing the Medicaid eligibility income limit from a state's historic eligibility levels to 133% of the federal poverty level. To date, 39 states and the District of Columbia have expanded Medicaid eligibility to cover this additional low-income patient population, and other states are considering

expansion. All of the states in which we operate, however, already cover children in the first year of life and pregnant women if their household income is at or below 133% of the federal poverty level. Recently, Democrats in Congress have sought to expand Medicaid or Medicaid-like coverage in states that have not yet expanded Medicaid. They also have sought to reduce payments to certain hospitals in some of these states. Additionally, as noted above, Congress is currently considering altering the terms and state remuneration for Medicaid expansion pursuant to the ACA. Should any of these changes take effect, we cannot predict with any assurance the ultimate effect to reimbursements for our services.

# Coronavirus Pandemic ("COVID-19")

COVID-19 has had an impact on the demand for medical services provided by our affiliated clinicians. Beginning in mid-March 2020 and continuing throughout the second quarter of 2020, our operating results were significantly impacted by COVID-19, but volumes began to normalize in mid-2020 and substantially recovered throughout 2020 with no material impacts from COVID-19 or its variants since that time. However, due to the continued uncertainties surrounding the timeline of and impacts from COVID-19 and with multiple variant strains still circulating, we are unable to predict the ultimate impact on our business, financial condition, results of operations, cash flows and the trading price of our securities at this time.

#### **CARES Act**

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was signed into law. The CARES Act is a relief package intended to assist many aspects of the American economy, including providing financial aid to the healthcare industry to reimburse healthcare providers for lost revenue and expenses attributable to COVID-19. The Department of Health and Human Services is administering this program, and our affiliated physician practices within continuing operations recognized an aggregate of \$0.3 million and \$11.4 million of CARES Act relief within miscellaneous revenue during the three and nine months ended September 30, 2022, respectively.

# Non-GAAP Measures

In our analysis of our results of operations, we use certain non-GAAP financial measures. We report adjusted earnings before interest, taxes and depreciation and amortization ("Adjusted EBITDA") from continuing operations, which is defined as income (loss) from continuing operations before interest, income taxes, depreciation and amortization, and transformational and restructuring related expenses. We also report adjusted earnings per share ("Adjusted EPS") from continuing operations which consists of diluted income (loss) from continuing operations per common and common equivalent share adjusted for amortization expense, stock-based compensation expense, transformational and restructuring related expenses and any impacts from discrete tax events. For the nine months ended September 30, 2022, both Adjusted EBITDA and Adjusted EPS are being further adjusted to exclude the impacts from the loss on the early extinguishment of debt.

We believe these measures, in addition to income from continuing operations, net income and diluted net income from continuing operations per common and common equivalent share, provide investors with useful supplemental information to compare and understand our underlying business trends and performance across reporting periods on a consistent basis. These measures should be considered a supplement to, and not a substitute for, financial performance measures determined in accordance with GAAP. In addition, since these non-GAAP measures are not determined in accordance with GAAP, they are susceptible to varying calculations and may not be comparable to other similarly titled measures of other companies.

For a reconciliation of each of Adjusted EBITDA from continuing operations and Adjusted EPS from continuing operations to the most directly comparable GAAP measures for the three and nine months ended September 30, 2023 and 2022, refer to the tables below (in thousands, except per share data).

	Three Months Ended September 30,			Nine Mont Septem				
	2023 2022		2022		2023		2022

A blended tax rate of 25% was used to calculate the tax effects of the adjustments for the nine months ended September 30, 2023 and 2022.

#### **Results of Operations**

# Three Months Ended September 30, 2023 as Compared to Three Months Ended September 30, 2022

Our net revenue attributable to continuing operations was \$506.6 million for the three months ended September 30, 2023, as compared to \$489.9 million for the same period in 2022. The increase in net revenue of \$16.7 million, or 3.4%, was primarily attributable to an increase in same-unit revenue, partially offset by a decrease in revenue from net non-same unit activity. Same units are those units at which we provided services for the entire current period and the entire comparable period. Same-unit net revenue increased by \$19.8 million, or 4.1%. The increase in same-unit net revenue was comprised of an increase of \$25.1 million, or 5.3%, from net reimbursement-related factors, partially offset by a decrease of \$5.3 million, or 1.2%, related to patient service volumes. The net increase in revenue related to net reimbursement-related factors was primarily due to an increase in revenue resulting from improved cash collection rates in the current period as compared to those rates in the prior year period, which prior year rates were significantly impacted by unfavorable revenue cycle management performance and a decrease in the percentage of our patients being enrolled in GHC Programs. The decrease in revenue from patient service volumes was related to decreases in hospital-based women's and children's services and primary and urgent care, partially offset by a modest increase in maternal-fetal medicine.

Practice salaries and benefits attributable to continuing operations increased \$25.5 million, or 7.4%, to \$368.4 million for the three months ended September 30, 2023, as compared to \$342.9 million for the same period in 2022. Of the \$25.5 million increase, \$13.5 million was related to salaries, driven by increases in clinical compensation expense at our existing units, and \$12.0 million was related to benefits and incentive compensation, primarily due to increases in incentive compensation related to practice results as well as increases in malpractice expense and group health insurance costs. We anticipate that we will continue to experience a higher rate of growth in clinician compensation expense at our existing units over historic averages, which could adversely affect our business, financial condition, results of operations, cash flows and the trading price of our securities.

Practice supplies and other operating expenses attributable to continuing operations decreased \$0.5 million, or 1.7%, to \$31.3 million for the three months ended September 30, 2023, as compared to \$31.9 million for the same period in 2022. The decrease was primarily attributable to decreases in practice supply, rent and other costs related to our non-same unit practices. Costs at our existing units were essentially flat with decreases in operating taxes and medical supply costs, almost entirely offset by increases in professional fees, and workers' compensation expenses, as compared to the prior year period.

General and administrative expenses attributable to continuing operations primarily include all billing and collection functions and all other salaries, benefits, supplies and operating expenses not specifically related to the day-to-day operations of our affiliated physician practices and services. General and administrative expenses were \$57.4 million for the three months ended September 30, 2023, as compared

to \$57.9 million for the same period in 2022. The net decrease of \$0.5 million was primarily related to decreases in expenses across several categories, including information technology professional service fees, insurance expense and net staffing cost reductions, partially offset by an increase in bonus expense as compared to the prior year. General and administrative expenses as a percentage of net revenue was 11.3% for the three months ended September 30, 2023, as compared to 11.8% for the same period in 2022.

Transformational and restructuring related expenses attributable to continuing operations were \$1.0 million for three months ended September 30, 2022 and primarily related to consulting fees and contract terminations.

Depreciation and amortization expense attributable to continuing operations was \$9.2 million for the three months ended September 30, 2023, as compared to \$9.0 million for the same period in 2022. The net increase of \$0.2 million was primarily related to an increase in depreciation expense for information technology and other equipment, partially offset by lower amortization expenses related to intangible assets, both at our existing units.

Income from operations attributable to continuing operations decreased \$7.1 million, or 15.0%, to \$40.3 million for the three months ended September 30, 2023, as compared to \$47.4 million for the same period in 2022. Our operating margin was 7.9% for the three months ended September 30, 2023, as compared to 9.7% for the same period in 2022. The decrease in our operating margin was primarily due to unfavorable impacts in our same-unit results driven by higher operating expenses, partially offset by same-unit revenue increases and lower general and administrative expenses. Excluding transformation and restructuring related expenses for the three months ended September 30, 2022, our income from operations attributable to continuing operations was \$48.4 million and our operating margin was 9.9% for such period. We believe excluding the impacts from the transformational and restructuring related activity provides a more comparable view of our operating income and operating margin from continuing operations.

Total non-operating expenses attributable to continuing operations were \$9.4 million for the three months ended September 30, 2023, as compared to \$8.5 million for the same period in 2022. The net increase in non-operating expenses was primarily related to an increase of \$0.9 million in interest expense from higher interest rates on lower average borrowings.

Our effective income tax rate attributable to continuing operations ("tax rate") was 30.6% for the three months ended September 30, 2023 as compared to 25.9% for the three months ended September 30, 2022. The third quarter 2023 tax rate includes net discrete tax expense of \$1.1 million, and the third quarter 2022 tax rate includes net discrete tax benefits of \$1.1 million. After excluding discrete tax impacts during the three months ended September 30, 2023 and 2022, our effective income tax rate was 27.0% and 28.7%, respectively. We believe excluding discrete tax impacts provides a more comparable view of our tax rate.

Income from continuing operations was \$21.4 million for the three months ended September 30, 2023, as compared to \$28.8 million for the three months ended September 30, 2022. Net income attributable to Pediatrix Medical Group, Inc. was \$21.4 million for the three months ended September 30, 2023, as compared to \$30.7 million for the same period in 2022. Adjusted EBITDA from continuing operations attributable to Pediatrix Medical Group, Inc. was \$50.4 million for the three months ended September 30, 2023, as compared to \$58.3 million for the same period in 2022. The decrease in our Adjusted EBITDA was primarily due to net unfavorable impacts in our same-unit results, primarily from higher operating expenses.

Diluted net income per common and common equivalent share attributable to Pediatrix Medical Group, Inc. was \$0.26 on weighted average shares outstanding of 83.0 million for the three months ended September 30, 2023, as compared to \$0.37 per common and common equivalent share on weighted average shares outstanding of 82.8 million for the same period in 2022. Adjusted EPS from continuing operations was \$0.32 for the three months ended September 30, 2023, as compared to \$0.40 for the same period in 2022.

# Nine Months Ended September 30, 2023 as Compared to Nine Months Ended September 30, 2022

Our net revenue attributable to continuing operations was \$1.50 billion for the nine months ended September 30, 2023, as compared to \$1.46 billion for the same period in 2022. The increase in net revenue of \$40.0 million, or 2.7%, was primarily attributable to increases in same-unit revenue and slight increases in revenue from non-same unit activity. Same units are those units at which we provided services for the entire current period and the entire comparable period. Same-unit net revenue increased by \$39.2 million, or 2.8%. The increase in same-unit net revenue was due to an increase of \$39.5 million, or 2.8%, from net reimbursement-related factors, partially offset by a decrease of \$0.3 million, related to patient service volumes. The net increase in revenue related to net reimbursement-related factors was primarily due to an increase in revenue resulting from improved cash collection rates in the current period as compared to those rates in the prior year period, which prior year rates were significantly impacted by unfavorable revenue cycle management performance, partially offset by decreases in revenue from CARES Act relief and from an increase in the percentage of our patients being enrolled in GHC Programs. The decrease in revenue from patient service volumes was primarily related to decreases in our hospital-based women's and children's services and primary and urgent care, partially offset by a modest increase in maternal-fetal medicine and other pediatric services.

Practice salaries and benefits attributable to continuing operations increased \$67.9 million, or 6.7%, to \$1.08 billion for the nine months ended September 30, 2023, as compared to \$1.02 billion for the same period in 2022. Of the \$67.9 million increase, \$43.8 million was related to salaries, driven by increases in clinical compensation expense at our existing units, and \$24.1 million was related to benefits and incentive compensation, primarily due to increases in incentive compensation related to practice results as well as increases in malpractice expense and group health insurance costs. We anticipate that we will continue to experience a higher rate of growth in clinician compensation expense at our existing units over historic averages, which could adversely affect our business, financial condition, results of operations, cash flows and the trading price of our securities.

Practice supplies and other operating expenses attributable to continuing operations increased \$2.9 million, or 3.2%, to \$93.1 million for the nine months ended September 30, 2023, as compared to \$90.2 million for the same period in 2022. The increase was primarily attributable to increases in practice supply, rent and other costs at our existing units, including increases in workers' compensation insurance and professional services expense, partially offset by a decrease in operating taxes. The increases in our same-unit activity were partially offset by modest decreases in practice supply, rent and other costs related to non-same unit activity.

General and administrative expenses attributable to continuing operations primarily include all billing and collection functions and all other salaries, benefits, supplies and operating expenses not specifically identifiable to the day-to-day operations of our affiliated physician practices and services. General and administrative expenses were \$174.5 million for the nine months ended September 30, 2023, as compared to \$180.3 million for the same period in 2022. The net decrease of \$5.8 million is primarily related to lower professional services fees, primarily related to information technology, lower insurance expense and decreases in expenses from net staffing reductions. General and administrative expenses as a percentage of net revenue was 11.6% for the nine months ended September 30, 2023, as compared to 12.4% for the same period in 2022.

Transformational and restructuring related expenses attributable to continuing operations were \$7.7 million for the nine months ended September 30, 2022 and primarily related to position eliminations.

Depreciation and amortization expense attributable to continuing operations was \$27.1 million for the nine months ended September 30, 2023, as compared to \$26.5 million for the same period in 2022. The increase of \$0.6 million was primarily related to an increase in depreciation expense related to information technology equipment, partially offset by lower amortization expenses related to intangible assets, both at our existing units.

Income from operations attributable to continuing operations decreased \$17.9 million, or 13.1%, to \$118.8 million for the nine months ended September 30, 2023, as compared to \$136.7 million for the same period in 2022. Our operating margin was 7.9% for the nine months ended September 30, 2023, as compared to 9.4% for the same period in 2022. The decrease in our operating margin was primarily due to net increases in overall operating expenses and a decrease in CARES Act relief, partially offset by higher same-unit revenue and favorable general and administrative expenses. Excluding transformation and restructuring related expenses for the nine months ended September 30, 2022, our income from operations attributable to continuing operations was \$144.4 million and our operating margin was 9.9% for such period. We believe excluding the impacts from the transformational and restructuring related activity provides a more comparable view of our operating income and operating margin from continuing operations.

Total non-operating expenses attributable to continuing operations were \$28.3 million for the nine months ended September 30, 2023, as compared to \$83.1 million for the same period in 2022. The net decrease in non-operating expenses was primarily related to a decrease of \$57.0 million in loss on early extinguishment of debt from the redemption of our 6.25% senior unsecured notes due 2027 (the "2027 Notes") in February 2022, partially offset by an increase in interest expense from higher interest rates on lower average borrowings.

Our tax rate was 29.4% for the nine months ended September 30, 2023 compared to 28.0% for the nine months ended September 30, 2022. The tax rate for the nine months ended September 30, 2023 includes net discrete tax expense of \$2.0 million. Discrete tax impacts during the nine months ended September 30, 2022 were nominal. After excluding discrete tax impacts, during the nine months ended September 30, 2023 and 2022, our tax rate was 27.2% and 28.5%, respectively. We believe excluding discrete tax impacts on our tax rate provides a more comparable view of our effective income tax rate.

Income from continuing operations was \$63.9 million for the nine months ended September 30, 2023, as compared to \$38.6 million for the nine months ended September 30, 2022. Net income attributable to Pediatrix Medical Group, Inc. was \$63.9 million for the nine months ended September 30, 2023, as compared to \$36.7 million for the same period in 2022. Adjusted EBITDA from continuing operations attributable to Pediatrix Medical Group, Inc. was \$149.6 million for the nine months ended September 30, 2023, as compared to \$174.5 million for the same period in 2022. The decrease in our Adjusted EBITDA was primarily due to net unfavorable impacts in our same-unit results, primarily from higher operating expenses as well as a decrease in CARES Act relief.

Diluted net income per common and common equivalent share attributable to Pediatrix Medical Group, Inc. was \$0.77 on weighted average shares outstanding of 82.5 million for the nine months ended September 30, 2023, as compared to \$0.43 per common and common equivalent share on weighted average shares outstanding of 84.8 million for the same period in 2022. Adjusted EPS from continuing operations was \$0.94 for the three months ended September 30, 2023, as compared to \$1.20 for the same period in 2022. The decrease in weighted average shares outstanding resulted from the share repurchases completed during 2022.

# **Liquidity and Capital Resources**

As of September 30, 2023, we had \$21.2 million of cash and cash equivalents attributable to continuing operations as compared to \$9.8 million at December 31, 2022. Additionally, we had working capital attributable to continuing operations of \$70.1 million at September 30, 2023, an increase of \$69.1 million from working capital of \$1.0 million at December 31, 2022.

# **Cash Flows from Continuing Operations**

Cash (used in) provided from operating, investing and financing activities from continuing operations is summarized as follows (in thousands):

Nine Months Ended	
Sentember 30.	

		ocptember 50,				
	_	2023		2022		
Operating activities	\$	73,078	\$	80,019		
Investing activities		(35,752)		(45,713)		
Financing activities		(20,968)		(401,265)		

# **Operating Activities from Continuing Operations**

During the nine months ended September 30, 2023, our net cash provided by operating activities for continuing operations was \$73.1 million, compared to \$80.0 million for the same period in 2022. The net decrease in cash provided of \$6.9 million was primarily due to decreases in cash flow from prepaid expenses and other current assets, income taxes and other liabilities, partially offset by increases in cash flow from accounts receivable and accounts payable and accrued expenses.

During the nine months ended September 30, 2023, cash flow from accounts receivable for continuing operations increased by \$22.1 million, as compared to a decrease of \$0.5 million for the same period in 2022. The increase in cash flow from accounts receivable for the nine months ended September 30, 2023 as compared to the prior year period was primarily due to improved cash collections at existing units.

Days sales outstanding ("DSO") is one of the key factors that we use to evaluate the condition of our accounts receivable and the related allowances for contractual adjustments and uncollectibles. DSO reflects the timeliness of cash collections on billed revenue and the level of reserves on outstanding accounts receivable. Our DSO for continuing operations was 50.4 days at September 30, 2023 as compared to 53.1 days at December 31, 2022 and 55.3 days at September 30, 2022. The improvement in our DSO was primarily related to improved cash collections at our existing units.

#### **Investing Activities from Continuing Operations**

During the nine months ended September 30, 2023, our net cash used in investing activities for continuing operations of \$35.8 million consisted primarily of capital expenditures of \$24.3 million and net purchases of investments of \$9.9 million.

# **Financing Activities from Continuing Operations**

During the nine months ended September 30, 2023, our net cash used in financing activities for continuing operations of \$21.0 million primarily consisted of net payments on our Revolving Credit Line (as defined below) of \$4.0 million and payments on our Term A Loan (as defined below) of \$9.4 million.

# Liquidity

On February 11, 2022, we issued \$400.0 million of 5.375% unsecured senior notes due 2030 (the "2030 Notes"). We used the net proceeds from the issuance of the 2030 Notes, together with \$100.0 million drawn under our Revolving Credit Line (as defined below), \$250.0 million of Term A Loan and approximately \$308.0 million of cash on hand, to redeem (the "Redemption") the 2027 Notes, which had an outstanding principal balance of \$1.0 billion, and to pay costs, fees and expenses associated with the Redemption and the Credit Agreement Amendment (as defined below).

Also in connection with the Redemption, we amended and restated the Credit Agreement (the "Credit Agreement"), and such amendment and restatement (the "Credit Agreement Amendment"), concurrently with the issuance of the 2030 Notes. The Credit Agreement, as amended by the Credit Agreement Amendment (the "Amended Credit Agreement"), among other things, (i) refinanced the prior unsecured revolving credit facility with a \$450.0 million unsecured revolving credit facility, including a \$37.5 million sub-facility for the issuance of letters of credit (the "Revolving Credit Line"), and a new \$250.0 million term A loan facility ("Term A Loan") and (ii) removed JPMorgan Chase Bank, N.A., as the administrative agent under the Credit Agreement and appointed Bank of America, N.A. as the administrative agent for the lenders under the Amended Credit Agreement.

The Amended Credit Agreement matures on February 11, 2027 and is guaranteed on an unsecured basis by substantially all of our subsidiaries and affiliated professional contractors. At our option, borrowings under the Amended Credit Agreement bear interest at (i) the Alternate Base Rate (defined as the highest of (a) the prime rate as announced by Bank of America, N.A., (b) the Federal Funds Rate plus 0.50% and (c) Term Secured Overnight Financing Rate ("SOFR") for an interest period of one month plus 1.00% with a 1.00% floor) plus an applicable margin rate of 0.50% for the first two fiscal quarters after the date of the Credit Agreement Amendment, and thereafter at an applicable margin rate ranging from 0.125% to 0.750% based on our consolidated net leverage ratio or (ii) Term SOFR rate (calculated as the Secured Overnight Financing Rate published on the applicable Reuters screen page plus a spread adjustment of 0.10%, 0.15% or 0.25% depending on if we select a one-month, three-month or six-month interest period, respectively, for the applicable loan with a 0% floor), plus an applicable margin rate of 1.50% for the first two full fiscal quarters after the date of the Credit Agreement Amendment, and thereafter at an applicable margin rate ranging from 1.125% to 1.750% based on our consolidated net leverage ratio. The Amended Credit Agreement also provides for other customary fees and charges, including an unused commitment fee with respect to the Revolving Credit Line ranging from 0.150% to 0.200% of the unused lending commitments under the Revolving Credit Line, based on our consolidated net leverage ratio.

The Amended Credit Agreement contains customary covenants and restrictions, including covenants that require us to maintain a minimum interest coverage ratio, a maximum consolidated net leverage ratio and to comply with laws, and restrictions on the ability to pay dividends, incur indebtedness or liens and make certain other distributions subject to baskets and exceptions, in each case, as specified therein.

Failure to comply with these covenants would constitute an event of default under the Amended Credit Agreement, notwithstanding the ability of the company to meet its debt service obligations. The Amended Credit Agreement includes various customary remedies for the lenders following an event of default, including the acceleration of repayment of outstanding amounts under the Amended Credit Agreement. In addition, we may increase the principal amount of the Revolving Credit Line or incur additional term loans under the Amended Credit Agreement in an aggregate principal amount such that on a pro forma basis after giving effect to such increase or additional term loans, we are in compliance with the financial covenants, subject to the satisfaction of specified conditions and additional caps in the event that the Amended Credit Agreement is secured.

At September 30, 2023, we had an outstanding principal balance on the Amended Credit Agreement of \$231.3 million, comprised solely of the Term A Loan. At September 30, 2023, the Company had no outstanding balance under the Revolving Credit Line. We had \$450.0 million available on the Amended Credit Agreement at September 30, 2023.

At September 30, 2023, we had an outstanding principal balance of \$400.0 million on the 2030 Notes. Our obligations under the 2030 Notes are guaranteed on an unsecured senior basis by the same subsidiaries and affiliated professional contractors that guarantee our Amended Credit Agreement. Interest on the 2030 Notes accrues at the rate of 5.375% per annum, or \$21.5 million, and is payable semi-annually in arrears on February 15 and August 15, beginning on August 15, 2022.

The indenture under which the 2030 Notes are issued, among other things, limits our ability to (1) incur liens and (2) enter into sale and lease-back transactions, and also limits our ability to merge or dispose of all or substantially all of our assets, in all cases, subject to a number of customary exceptions. Although we are not required to make mandatory redemption or sinking fund payments with respect to the 2030 Notes, upon the occurrence of a change in control, we may be required to repurchase the 2030 Notes at a purchase price equal to 101% of the aggregate principal amount of the 2030 Notes repurchased plus accrued and unpaid interest.

At September 30, 2023, we believe we were in compliance, in all material respects, with the financial covenants and other restrictions applicable to us under the Amended Credit Agreement and the 2030 Notes. We believe we will be in compliance with these covenants throughout 2023.

We maintain professional liability insurance policies with third-party insurers, subject to self-insured retention, exclusions and other restrictions. We self-insure our liabilities to pay self-insured retention amounts under our professional liability insurance coverage through a wholly owned captive insurance subsidiary. We record liabilities for self-insured amounts and claims incurred but not reported based on an actuarial valuation using historical loss information, claim emergence patterns and various actuarial assumptions. Our total liability related to professional liability risks at September 30, 2023 was \$295.7 million, of which \$30.2 million is classified as a current liability within accounts payable and accrued expenses in the Consolidated Balance Sheet. In addition, there is a corresponding insurance receivable of \$40.6 million recorded as a component of other assets for certain professional liability claims that are covered by insurance policies.

We anticipate that funds generated from operations, together with our current cash on hand and funds available under our Amended Credit Agreement, will be sufficient to finance our working capital requirements, fund anticipated acquisitions and capital expenditures, fund expenses, if any, related to our transformational and restructuring activities, fund our share repurchase programs and meet our contractual obligations for at least the next 12 months from the date of issuance of this Quarterly Report on Form 10-Q.

#### **Caution Concerning Forward-Looking Statements**

Certain information included or incorporated by reference in this Quarterly Report may be deemed to be "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements may include, but are not limited to, statements relating to our objectives, plans and strategies, and all statements, other than statements of historical facts, that address activities, events or developments that we intend, expect, project, believe or anticipate will or may occur in the future are forward-looking statements. These statements are often characterized by terminology such as "believe," "hope," "may," "anticipate," "should," "intend," "plan," "will," "expect," "estimate," "project," "positioned," "strategy" and similar expressions, and are based on assumptions and assessments made by our management in light of their experience and their perception of historical trends, current conditions, expected future developments and other factors they believe to be appropriate. Any forward-looking statements in this Quarterly Report are made as of the date hereof, and we undertake no duty to update or revise any such statements, whether as a result of new information, future events or otherwise. Forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties. Important factors that could cause actual results, developments and business decisions to differ materially from forward-looking statements are described in the 2022 Form 10-K and this Quarterly Report, including the section entitled "Risk Factors."

# Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to market risk primarily from exposure to changes in interest rates based on our financing, investing and cash management activities. We intend to manage interest rate risk through the use of a combination of fixed rate and variable rate debt. We borrow under our Amended Credit Agreement at various interest rate options based on the Alternate Base Rate or SOFR rate depending on certain financial ratios. At September 30, 2023, the outstanding principal balance on our Amended Credit Agreement was \$231.3 million, comprised solely of the Term A Loan. Considering the outstanding balance, a 1% change in interest rates would result in an impact to income before taxes of approximately \$2.3 million per year.

# **Item 4. Controls and Procedures**

# **Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) that are designed to provide reasonable assurance that information required to be disclosed by the Company in reports it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of September 30, 2023.

# **Changes in Internal Controls Over Financial Reporting**

No changes in our internal control over financial reporting occurred during the three months ended September 30, 2023 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

#### PART II - OTHER INFORMATION

#### Item 1. Legal Proceedings

We expect that audits, inquiries and investigations from government authorities and agencies will occur in the ordinary course of business. Such audits, inquiries and investigations and their ultimate resolutions, individually or in the aggregate, could have a material adverse effect on our business, financial condition, results of operations, cash flows and the trading price of our securities.

In the ordinary course of our business, we become involved in pending and threatened legal actions and proceedings, most of which involve claims of medical malpractice related to medical services provided by our affiliated physicians. Our contracts with hospitals generally require us to indemnify them and their affiliates for losses resulting from the negligence of our affiliated physicians and other clinicians. We may also become subject to other lawsuits, including with payors or other counterparties that could involve large claims and significant defense costs. We believe, based upon a review of pending actions and proceedings, that the outcome of such legal actions and proceedings will not have a material adverse effect on our business, financial condition, results of operations, cash flows or the trading price of our securities. The outcome of such actions and proceedings, however, cannot be predicted with certainty and an unfavorable resolution of one or more of them could have a material adverse effect on our business, financial condition, results of operations, cash flows and the trading price of our securities.

Although we currently maintain liability insurance coverage intended to cover professional liability and certain other claims, we cannot assure that our insurance coverage will be adequate to cover liabilities arising out of claims asserted against us in the future where the outcomes of such claims are unfavorable to us. With respect to professional liability risk, we self-insure a significant portion of this risk through our wholly owned captive insurance subsidiary. Liabilities in excess of our insurance coverage, including coverage for professional liability and certain other claims, could have a material adverse effect on our business, financial condition, results of operations, cash flows and the trading price of our securities.

# Item 1A. Risk Factors

Item 1A. Risk Factors in our most recent Annual Report on Form 10-K includes a discussion of our risk factors. The information presented below updates, and should be read in conjunction with, the risk factors disclosed in our most recent Annual Report on Form 10-K. Except as presented below, there have been no material changes to the risk factors disclosed in our most recent Annual Report on Form 10-K.

We have begun to undertake a transformation of our revenue cycle management function from an outsourced provider to a hybrid function that utilizes both our corporate personnel as well as one or more third-party service providers. This transition will involve significant time and resources, and our failure to execute this transition efficiently and effectively may have a material impact on our business, financial condition, results of operations, cash flows and the trading price of our securities.

On October 30, 2023, we provided notice to R1 RCM Holdco Inc. (f/k/a R1 RCM Inc.) ("R1RCM") that we were terminating that certain Services Agreement, dated May 12, 2021, as amended, by and between our wholly-owned subsidiary PMG Services, Inc. and R1RCM (the "Services Agreement"), effective as of December 15, 2023. Pursuant to the Services Agreement, R1RCM is the primary provider of our enterprise revenue cycle management services. Our termination of the Services Agreement was in connection with R1RCM's performance, specifically R1RCM's failure to meet certain service levels set forth in the Services Agreement.

Following the termination of the Services Agreement, we are undertaking a transformation of our revenue cycle management function from R1RCM, as an outsourced provider, to a hybrid function that utilizes both our corporate personnel as well as one or more third-party service providers that we intend to engage to support these activities. The success of this plan depends, in part, on our ability to scale our internal operations to handle certain revenue cycle management functions internally, to engage one or more third-party service providers to handle other revenue cycle management functions, and to integrate those service providers with our systems in a timely and efficient manner. If we are not able to successfully achieve these objectives, the anticipated benefits of this transformation may not be realized fully or at all or may take longer to realize than expected. These activities may be complex and time consuming and involve delays or additional and unforeseen expenses. The process of transitioning to these third-party service providers, the integration process and other disruptions may also disrupt our ongoing businesses or cause inconsistencies in standards, controls, procedures and policies that could adversely affect our relationships with payors, patients, hospitals and others. The transformation may entail significant management and staff personnel time and a complicated phase-in process, where difficulties in training personnel in new technology can frequently occur. In connection with the transformation of our revenue cycle management function, we could experience a further reduction in revenue due to delays in collection efforts or the inability to collect from patients or third-party payors, claim denials, recoupments, or governmental and third-party audits, all of which may impact our profitability and cash flow. Further, the costs associated with the transformation of our revenue cycle management function, as well as the additional costs and risks associated with any operational problems, dela

# Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three months ended September 30, 2023, we withheld 10,667 shares of our common stock to satisfy minimum statutory withholding obligations in connection with the vesting of restricted stock.

Period	Total Number of Shares Repurchased <sup>(a)</sup>	Average Price Paid per Share	Total Number of Shares Purchased as part of the Repurchase Program	Value of Shares that May Yet Be Purchased Under the Repurchase Programs <sup>(a)</sup>
July 1 – July 31, 2023	_	\$ —		(a)
August 1 – August 31, 2023	_	_	_	(a)
September 1 – September 30, 2023	10,667 (b)	12.46	<u> </u>	(a)
Total	10,667	\$ 12.46		(a)

Approximate Dollar

- (a) We have two active repurchase programs. Our July 2013 program allows us to repurchase shares of our common stock up to an amount sufficient to offset the dilutive impact from the issuance of shares under our equity compensation programs, which is estimated to be approximately 1.1 million shares for 2023. Our August 2018 repurchase program allows us to repurchase up to an additional \$500.0 million of shares of our common stock, of which we repurchased \$495.4 million as of September 30, 2023.
- (b) Shares withheld to satisfy nominal minimum statutory withholding obligations in connection with the vesting of restricted stock.

The amount and timing of any future repurchases will depend upon several factors, including general economic and market conditions and trading restrictions.

# **Item 5. Other Information**

Rule 10b5-1 Trading Plans

During the three months ended September 30, 2023, none of the Company's directors or officers adopted or terminated any Rule 10b5-1 trading arrangement or non-Rule 10b5-1 trading arrangement (as such terms are defined in Item 408 of Regulation S-K).

# R1 Services Agreement

On October 30, 2023, PMG Services, Inc. (f/k/a Mednax Services, Inc.), a wholly-owned subsidiary of the Company ("PMG"), provided notice to R1 RCM Holdco Inc. (f/k/a R1 RCM Inc.) ("R1RCM") that PMG was terminating that certain Services Agreement, dated May 12, 2021, as amended, by and between PMG and R1RCM (the "Services Agreement"), effective as of December 15, 2023. Pursuant to the Services Agreement, R1RCM is the primary provider of enterprise revenue cycle management services for the Company (the "Services"). The Company's termination of the Services Agreement was a result of the occurrence of certain Service Level Termination Events (as defined in the Services Agreement) related to performance, which permitted PMG to terminate the Services Agreement. PMG anticipates incurring certain immaterial early termination fees in connection with the termination of the Services Agreement. Pursuant to the terms of the Services Agreement, R1RCM is obligated to provide PMG with certain termination assistance following the termination of the Services Agreement to allow the Services to continue without interruption or adverse effect and to facilitate the orderly transfer of the Services to the Company or any successor vendor.

# Item 6. Exhibits

Exhibit No.	Description
3.1	Second Amended and Restated Bylaws of Pediatrix Medical Group, Inc. (incorporated by reference to Exhibit 3.1 to the Company's Quarterly Report on Form 10-Q for the period ended June 30, 2023, filed on August 3, 2023).
31.1+	Certification of Chief Executive Officer pursuant to Securities Exchange Act Rule 13a-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2+	Certification of Chief Financial Officer pursuant to Securities Exchange Act Rule 13a-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32.1++	Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

# CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

# I, James D. Swift, M.D., certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Pediatrix Medical Group, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

# CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

# I, C. Marc Richards, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Pediatrix Medical Group, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
